ADMINISTRATIVE OFFICERS AND FACULTY
1943-1944

Administrative Staff

J. B. George, Ph.D. — President

H. M. Craft, B.S., M.A. — Vice-President and Dean

Mary Pulley, B.S. — Registrar

B. W. Curry — Financial Secretary

Lynda Ramey, M.A. — Dean of Women

E. M. Ivy, B.S., M.A. — Superintendent of Demonstration School

H. D. Pickens, Ph.D. — Director of Teacher Training, and Professor of Education

John M. King, M.A. — Director of In-Service Teacher Training

V. M. Morgan — Bookkeeper

Mary Ruth Dickey, B.S. — Secretary to the President

Marie Odom, B.S. — Secretary to the Vice-President

Margaret Barrett — Secretary to the Registrar

Mary Donavan Parker — Secretary to the Financial Secty.

M. H. Stemme — Superintendent of Grounds

Mrs. Eugene Wilder, B.A. — Librarian Demonstration School

Mrs. C. T. Singleton — Hostess Mississippi Hall

Mrs. Selah Carmichael — Hostess Hattiesburg Hall

S. E. Bethea, M.D. — College Physician

Beedie E. Smith, R.N. — Nurse

Joicie Smith — Dietitian

ACADEMIC CALENDAR
1943-1944

Faculty meetings will be held at 7:30 P.M., on the second Tuesday, and fourth Tuesday of October, November, January, February, March, and April.

Fall Quarter—1943-1944

Monday, September 20—12:00 Noon—Dormitories open to students.

Monday, September 20—7:30 P. M.—First Faculty meeting.

Tuesday, September 21 — 9:00 A. M.—Registration and classification of all students.

—9:00 A. M.—Placement tests for all freshmen and transfer students. Exemption test for those wishing to be excused from freshman courses.

—9:00 A. M. Entrance examinations for mature students who cannot present fifteen units of high school work.

—7:00 P. M.—Physical examination at the college hospital. No student's registration is complete until he has taken a physical examination.

Wednesday, September 22—8:00 A. M.—All classes meet. (First period through seventh period).

—10:45 A. M.—First chapel service.

Tuesday, September 28—Last day for sixteen academic hours registration for Fall Quarter.

Wednesday, November 24—4:00 P. M. to November 29, Monday 8:00 A. M.—Thanksgiving holidays.

Thursday and Friday, December 9 and 10—Fall Quarter examinations.

Winter Quarter—1943-1944

Monday, December 13—Registration for Winter Quarter.

Tuesday, December 14—Last day for payment of fees for Winter Quarter to avoid late registration fee.

Tuesday, December 14—8:00 A. M.—Class work begins for Winter Quarter.

Friday, December 17—4:15 P. M.—Christmas holidays begin. Dormitories closed to students, Saturday, December 18, 1943, 12:00 noon.

Sunday, January 2, 1943—Dormitories open to students, 12:00 noon. First meal served in dining hall, breakfast, January 3, 1944.

Monday, January 3—Last day for full registration for the Winter Quarter.

Thursday, January 6—Last day for twelve academic hours registration for Winter Quarter.

Thursday, February 7—Second Term of Winter Quarter begins.

Thursday and Friday, March 16 and 17—Winter Quarter examinations.

Spring Quarter—1943-1944

Monday, March 20—Registration for Spring Quarter. Last day for payment of fees for Spring Quarter to avoid late registration fee.

Tuesday, March 21—8:00 A. M.—Class work begins for Spring Quarter.

Monday, March 27—Last day for full registration for Spring Quarter.

Monday, April 3—Last day for twelve academic hours registration for Spring Quarter.

Monday, April 24—Second term of Spring Quarter begins.

Sunday, May 7 to Friday, May 12—Religious Emphasis Week.

Tuesday, May 23—Graduation exercises for Demonstration School.

Thursday, May 25 and Friday, May 26—Senior examinations.

Sunday, May 28—Commencement sermon.

Monday, May 29—10:00 A. M.—Class day exercises.

Tuesday, May 30—8:00 P. M.—Graduation exercises.

Thursday, June 1 and Friday, June 2—Spring Quarter examinations.

Summer Quarter—1944

Monday, June 5—Summer Quarter begins.*

Friday, June 9—Last day for full registration for entire Summer Quarter, or for six academic hours registration for first term.

Monday, June 12—Last day for twelve hours academic registration for Summer Quarter.

Friday, July 4—Mid-Quarter examinations.

Monday, July 7—Second term of Summer Quarter begins.

Wednesday, July 9—Last day for full registration for second term of Summer Quarter.

Friday, August 4—Senior examinations.

Tuesday, August 8—8:00 P. M.—Graduation exercises.

Friday, August 11—Summer Quarter examinations.

Each Sunday evening at six-thirty, vesper services are held under the direction of the Christian Association.

NOTE—License may be renewed by attending the last half of the Spring Quarter, or either term of the Summer Quarter.

*Students registering for half quarter must register within the first two days for a full load for after the second day only six academic hours will be allowed for half quarter. Seniors expecting to graduate at the end of a half quarter term must register within the first two days of the term regardless of load.

Examinations at the end of the spring quarter will follow the schedule published in the April bulletin.

During each of the two terms of the summer, the last regularly scheduled meetings of the class will be used for examination purposes. No final examination is permitted except on examination days.

A student who is absent from an examination without valid reason approved by the Dean forfeits credits for the quarter. A fee of one dollar is charged for special examinations.

FACULTY COMMITTEES—1943-1944

Academic Honors—Lowrey, Austin, McLemore, Bolton.

Advisory to the President—Craft, Lowrey, Austin, Bolton, Schwartz, Shands, Fritzsche.

Athletics—Craft, Leech, Owings.

Attendance—Austin, Ramey, Thompson.

Calendar—Ramey, Marsh, Hickman, Billingsley, D'Olive.

Certificates and Graduation—Lowrey, Pulley, Steele, McLemore.

Christian Federation—Wilkinson, Jones, Ramey, Billingsley, Pickens, Moulder.

Courtesy—Jones, Thompson, D'Olive, Hickman, Jackson.

Credits—Steele, Pulley, Craft.

Curricula—Craft, Lowrey, Schwartz, Austin, McLemore, Marsh, Fritzsche, Pulley, Freeny.

Discipline—McLemore, Austin, Bolton.

Examinations—McAlister, Campbell, Harlan, Keller.

Extension and Correspondence—Craft, Freeny.

Housing—Ramey, Pickens, Freeny, George, Jackson.

Junior College Advisory—Steele, Ramey, Pickens, Jackson.

Library—Roberts, Lowrey, Fritzsche, McLemore.

Lyceum—George, Craft, Keller.

Mississippi Historical Affairs—McLemore, Lowrey, Bolton, Hickman, Roberts, Ramey, Fowler.

Placement Bureau—King, Pickens, Ramey, Ivy.

Publicity—Marsh, Pulley, Pickens.

Scholarship — Craft, Pulley, McLemore, Austin, Shands, Fritzsche.

Student Social Life—Ramey, Jones, Steele, Hickman, McLemore, D'Olive, Pickens, Baylis, Billingsley, Thompson.

FACULTY—1943-1944

J. B. George, B.S., M.A., Ph.D.—President

H. M. Craft, B.S., M.A.—Vice-President

O. V. Austin, B.A., M.A.—Professor of Science
One year graduate study beyond M.A. degree.

Mary Theresa Baylis, Mus.B.—Instructor in Music
Student of Arthur Friedheim, Dr. William Berwald, Harry Vibbard, Silvio Scionti, Edward Collins, Leo Sowerby.

Allie Ward Billingsley, B.A., M.A.,—Instructor in Foreign Languages
One year graduate study beyond M.A. degree.

Willa Bolton, B.A., M.A.—Professor of Geography
Residence work completed for Ph.D. degree.

Pearl Campbell, B.A., M.S.—Instructor in Home Economics

Mary Louise Daniel, B.S., M.A.—Critic Teacher, Third Grade

Mrs. Ruth Deaton, B.S.—Critic Teacher, Commerce

Forrest DeLano, Mus.B.—Instructor of Music
Student of Cardon V. Burnham, Margaret Lawson Mulford, Jane Peterson, Lucy J. Hartmann, Phillip-Manuel, Theodore Harrison, Dr. Winter Thompson.

Annie L. D'Olive, B.S., M.A.—Instructor in Art

Mrs. Katherine S. Foote, B.A., B.S., M.S.—Critic Teacher, Mathematics

*William H. Ford, M.A.—Instructor of Commerce

Lula Mae Fowler, B.A., M.A.—Instructor in History

*John M. Frazier, B.S., M.A.—Assistant Prof. in Science and Curator of the Museum
Two quarters graduate study beyond M.A. degree.

T. H. Freeny, B.S., M.A.—Associate Prof. of Psychology
Residence work completed for Ph.D. degree.

Bertha M. Fritzsche, B.S., M.S.—Prof. of Home Economics
Two quarters graduate study beyond M.A. degree.

*Leave of absence, U. S. Service.

Anna E. George, Mus.B., Mus.M.—Instructor of Music
Three years study, Paris and London. Student of Madame Julie Rive-King, Edgar A. Brazelton, Paul Corder, Emil Schwartz, Rosetter Cole, Grace Potter Carroll, Irwin Fischer.

*Reed Green, B.S.—Coach, Instructor in Physical Education

William B. Harlam, B.S.—Instructor of Commerce
Graduate study in commerce.

Mary S. Hawkins, B.S., M.A.—Critic Teacher, Fifth Grade

Alma Hickman, B.A., M.A., Ph.B.—Associate Professor of English
One quarter graduate study beyond M.A. degree.

*Benjamin L. Hill, B.S., M.A.—Critic Teacher, H. S. Science

Edith Hinton, B.S.—Teacher, First Grade

Mrs. Betty Hurst, B.S.—Teacher, Fourth Grade

E. M. Ivy, B.S., M. A.—Superintendent of Demonstration School

Willery Jackson, A.B., M.A.—Instructor of History
Residence work completed for Ph.D. degree.

Mrs. Elizabeth Johnson, B.S., M.S.—Assistant Professor of Home Economics

W. L. Johnson, B.S., M.A.—Professor of Mathematics

Perrin Johnston, B.S.—Teacher, Second Grade

Emily Peyton Jones, B.S., M.A.—Associate Professor of Education
Two quarters graduate study beyond M.A. degree.

William M. Keller, Mus.B., Mus.M.—Instructor in Music
Student of William Morgan Knox, Carl Heermann, Walter Werner, Adolf Hahn, A. J. Gantvort, Dr. Sidney C. Durst, Professor Carl Vchenk.

Mrs. A. S. Koenig, B.S., M.A.—Teacher, Seventh Grade

Mrs. D. C. Leech, B.S.—Teacher, First Grade

*Leave of absence, U. S. Service.

Eleanor S. Leek, Mus.B.—Instructor of Music
One year graduate study at Eastman School of Music, Student of Bernard Rogers, Edward Royce, Gustave Soderland, George Finckel, Paul Kefer, George Hekking, Allison MacKnown.

R. G. Lowery, B.S., M.A., Ph.D.—Professor of English

Frank E. Marsh, Jr., Mus.B., M.A.—Professor of Music
Student of Senor Alberto Jonas, Dr. Adolf Frey, Kurt Fischer, Ethel Newcomb, Arthur Newstead, George W. Chadwick, F. Stuart Mason, Dr. William Berwald, Dr. Frank Sill Rogers.

Mrs. Gladys B. McAlister, B.S., M.A.—Instructor of Physical Education

Helen Janet MacDonald, Mus.B.—Instructor of Music
Student of Leon Samentini, Gustave Dunkelberger, Arthur Graham, Wesley La Violette, Max I. Fischel, Isaac Van Grove, Herbert Witherspoon.

Sallie Stevens McLemore, B.S., M.A.—Critic Teacher, Sixth Grade

Richard A. McLemore, B.A., M.A., Ph.D.—Prof. of History

A. D. Owings, B.S., M.S.—Assistant Professor of Science

H. D. Pickens, B.A., M.A., Ph.D.—Director of Teacher Training and Superintendent of Demonstration School

Lynda Ramey, B.S., M.A.—Dean of Women, Instructor in Social Science

Anna M. Roberts, B.A., M.A., B.S. in Library Science—Librarian

Robert E. Schwartz, B.S., M.D.—Professor of Health and Physical Education

Hubert A. Shands, A.B., A.M., Ph.D.—Professor of Foreign Language

Mrs. T. R. Smith-Vaniz, B.S.—Teacher, Fifth Grade

Herd C. Steele, B.S., Ph.D.—Professor of Science

Emily Stribling, B.A., M.S.—Assistant Professor of Home Economics

Amelia Thompson, B.S., M.S.—Assistant Professor of Home Economics

*Thad Vann, B.S.C.—Instructor in Physical Education and Assistant Coach

*J. F. Walker, B.A., M.A., Ph.D.—Associate Professor of Science

Mrs. Eugene Wilder, B.A.—Librarian, Demonstration School

Stephen A. Wilkinson, A.B., M.A.,—Instructor in Economics and Sociology
Residence work completed for Ph.D. degree.

*Leave of absence, U. S. Service.

AIMS OF THE COLLEGE

Mississippi Southern College was founded by an act of the Legislature in 1910 under the name of Mississippi Normal College. In recognition of an expanding program, the Legislature changed the name to State Teachers College in 1924. Since 1924 the College has continued to increase its services, and the Legislature of 1940 again changed the name to Mississippi Southern College.

Since a well-trained teacher must, first of all, be an educated person, this institution has, throughout its history, offered cultural courses. The College now proposes to extend its cultural aim beyond pre-professional levels and to assume the wider academic responsibilities that belong to liberal arts colleges. Mississippi Southern College now offers courses in the humanities and sciences leading to the Bachelor of Arts degree. As in the past, vocational curricular will lead to the Bachelor of Science for teachers, offered since 1922, and Bachelor of Music, offered since 1936.

In assuming this wider academic responsibility, the Mississippi Southern College does not mean to lay aside any part of its original purpose: the training of teachers for the public schools of Mississippi. Professional aims of the College include training prospective teachers in a sound philosophy of education, in principles of teaching, and in practical application of these principles. The College desires to keep in touch with its teaching alumni in order to assist them in the selection of reading matter on current educational and professional topics, to advise them of courses at the college that should be of benefit to them professionally, and to assist them in the solution of immediate administrative, teaching, or professional problems. The College also endeavors to lead the way in the improvement of educational and cultural conditions in our state.

Students interested in professions other than teaching may take their pre-professional work at Mississippi Southern College. There are also various vocational offerings. The College intends, as its facilities expand, to add such vocational courses as will best meet the needs of its students.

GENERAL INFORMATION

Buildings

The present buildings on the campus consist of eighteen brick structures and a few remaining frame buildings, all of which are steam-heated from a central heating plant and supplied with hot and cold water.

The Administration Building is a beautiful structure housing the offices of the Administration, the College Bookstore, and the Post Office.

The Auditorium has a seating capacity of 1536 and stage facilities for the largest dramatic productions. The Music Department has its classrooms and offices in this building.

College Hall is a three-story, fire-proof building containing thirty-five recitation rooms, offices, and laboratories.

The Demonstration School is a modern building of fourteen rooms and an auditorium. It affords facilities for observation, participation, and practice teaching in all twelve grades of public school work.

The Dining Hall is a modern structure with seating capacity of one thousand. It has all modern conveniences for reducing labor to a minimum, for storing and preserving food stuffs, and for disposal of garbage.

Forrest County Hall, Hattiesburg Hall and Mississippi Hall are dormitories for women. All three are three-story, fire-proof buildings of modern construction. They contain comfortable bedrooms and reception halls, and well appointed bathrooms on each floor. Forrest County Hall is the dormitory for senior girls.

The Home Economics Building is a two-story structure in which are housed the **Nursery School** (the first in the State), classrooms, and laboratories of the Home Economics Department.

The Hospital is a two-story, brick structure, adequate for taking care of the minor ailments of students. A trained nurse is in charge and on hand at all times, and the regular college physician is ready night and day to give medical attention to any student needing such.

The Memorial Station, at the campus entrance, is a small beautiful structure given by students, faculty, officers and friends of the college, and erected in honor of the students, officers, and faculty members who participated actively in the World War of 1914-1918.

Science Hall is a four-story, fire-proof building containing class-rooms and laboratories especially designed for science, industrial arts, and home economics. The first floor of the building is the student social center. In it are located Wimpy's, the college store, the office of the Dean of Women, and commodious, well appointed space for clubs and social activities, and lounges for men and women.

The Band Hall is a two-story brick structure used for band activities, music classes, and choir practice.

Demonstration School Gymnasium is a brick structure, enlarged and renovated during 1934 with the aid of funds from the Federal Government. Besides an ample playing floor and facilities for an audience of seven hundred people at games and exhibitions, it contains offices, storage rooms, lockers, showers, dressing rooms, and a lecture room.

The Power House is a sixty thousand dollar fire-proof structure erected in 1934. It houses the central heating plant and work shops for the college engineers.

Swimming Pool, 45'x105', recently constructed, with showers and locker rooms adjoining, and lighted for night use is of the most approved modern design with machinery for filtering and purifying the water every eight hours.

Home Management Cottages are frame dwellings on the campus used by the Department of Home Economics for training of students in management of household affairs.

Stadium-Dormitory is a dormitory for men. It is a new fire-proof building constructed on modern lines, housing one hundred and sixty men. The stadium will seat six thousand people at Faulkner Field and furnishes the facilities of an athletic clubhouse.

The Library is a two-story brick building containing four large reading rooms, reference and periodical rooms, offices, and stack rooms for 75,000 volumes and is equipped with excellent facilities.

STUDENT ORGANIZATIONS

Alpha Mu Chi, honorary musical club, was organized in November, 1933. The purpose of this organization is to promote among its members a better feeling of fellowship, and also to instill in each of them a desire for high scholarship in Music.

Band—The band of fifty pieces is made up principally of students, rehearsing twice a week, and is maintained to play for the athletic events and other student activities. The organization is under the directorship of an experienced musician and furnishes an opportunity for students desiring the type of work to become more proficient.

The Wesley Foundation, The Baptist Student Union, and **The Christian Endeavor** are student denominational organizations on the campus and are closely related to the churches of the city.

The Hattiesburg Choral Union is an Oratorio Chorus composed of students and citizens of Hattiesburg, which meets once a week for the purpose of studying the great master choral works. They present "The Messiah" at Christmas time and one of the great Oratorios at the Spring Music Festival.

The Debating Club trains debaters and schedules debates between the colleges of this region and Mississippi Southern College. Its membership is open to all who are interested. The debating team is chosen competitively from the list of members.

The Dramatic Club—Wig and Mask—has for its purpose the promotion of dramatic production and a study of stage craft. One hour credit per quarter in dramatics may be earned by active membership in the Dramatic Club.

The Thespians is an honorary dramatic club composed of selected students who have contributed noteworthy performances in the interest of drama.

The Elementary Council has for its aim the supplementing of training acquired through the usual channels of study. Exceptionally outstanding men are brought in for addresses before the members. A spirit of active interest in any new development in any phase of child welfare is fostered.

The M. Esther Rogers Home Economics Club is an organization open to all who are interested in the broad

field of Home Economics. Majors in this department are urged to take part in the programs, so that a closer relationship with others may be attained.

The International Relations Club is an organization affiliated with the Carnegie Endowment for International Peace. It has for its purpose the creating of a spirit of world friendship among all peoples through the study and discussion of world problems. The club is fostered by the department of Social Studies. The membership is confined to students of outstanding interest and attainments in the field.

The College Symphony Orchestra offers a splendid opportunity for gaining practical experience in ensemble playing and in solo performances with orchestra accompaniment, as well as in the study of the higher orchestral forms. Membership in the organization is compulsory for all violin students as soon as they are far enough advanced to take part in this work.

The Vesper Choir is a choral organization composed chiefly of students. For many years it has been the custom for the choir to tour the state during National Music Week, presenting programs of sacred music. The choir sang in Philadelphia, Pa., and Indianapolis, Ind., before the National Federation of Music Clubs in April 1935 and 1937, and before the Louisiana State Federation of Music Clubs at Monroe in 1936.

The Charm School, sponsored by the Student Christian Federation, is a social club for freshmen boys and girls. It is concerned with the A, B, C's of courtesy. It meets weekly under the direction of selected leaders and senior advisers.

The M Club is a social organization composed of the young men who have earned their varsity letters in intercollegiate athletic competition.

The Physical Education Club is a social club sponsored by the Department of Physical Education.

Pan-Hellenic Council has for its purpose maintaining on a high plane the sorority life of the college.

This council is composed of a certified representative from each sorority on the college campus. The faculty sponsor is elected by the council.

The following sororities and fraternities promote social fellowship on the campus: **Sigma Sigma Sigma, Sigma**

Theta Kappa, Mu Omega, Alpha Sigma Alpha, Delta Sigma Epsilon, Kappa Alpha Tau, Kappa Phi Sigma, Phi Delta Rho, and Pi Tau.

The Student Printz is a weekly newspaper published by the students of Mississippi Southern College. It provides a medium through which the students and faculty may express themselves freely in writing, and serves as an agency for disseminating news among both students and alumni. The Student Printz staff serves the purpose of a writers club.

Class Organizations are formed in the freshman, sophomore, junior, and senior classes.

County Clubs are organized by the students from many counties of Mississippi.

The Social Religious Center is located on the first floor of Science Hall. It contains a college store, women's lounge, men's lounge, and a recreation hall. This center furnishes headquarters for student and faculty activities.

The Student Christian Federation unites the activities of all religious organizations on the campus. Its executive council is composed of two elected representatives of the student body who serve as chairman and vice-chairman, and the presidents of the various religious organizations. The cabinet of the Christian Federation does its work through a number of committees whose chairmen form the cabinet. Some of the important committees are: Vesper Services, Charm School, Junior-Senior Forum, Courtesy, Publicity, Music, Chez Nous, Recreation and Talent Services. The Federation seeks to relate the students to the churches of their choice, to provide channels for worship and religious development on the campus. It maintains Pine Haven Lodge, a memorial hut for the use of any college group for social and recreational functions. The Federation operates the campus store (Wimpy's) and is financed by proceeds from this store.

CONCERT AND LECTURE COURSE

During the past few years the following artists, ensembles and lecturers have appeared on the Annual Concert and Lecture Course: Miss Frances Perkins, Secretary of Labor in President Roosevelt's Cabinet, John Carter, Albert Spalding, Carola Goya, Beatrice Buford, Jose Echanitz, Robert Cassedesus, Muriel Dickson, Robert Virovai, Maria

Gambarelli, Igor Gorin, Bartlett and Robertson, the Houston Symphony Orchestra and John Temple Graves II.

Concert Bureau

The faculty of the Department of Music numbers among its members artists, composers, and lecturers of wide reputation and acknowledged ability. This fact, added to the availability of a considerable list of alumni, places the school in a position to supply instrumentalists or vocalists for concert purposes, to furnish programs devoted to works of native composers, or to arrange for specialists to lecture before conferences, associations, or clubs.

LIBRARY

Books numbering more than twenty-five thousand volumes exclusive of Government publications are available for students' use in the main library. The library is a depository for Government publications. It also receives regularly about one hundred seventy-five current periodicals. In addition to the main library about four thousand volumes are available to students in the departmental libraries and the Demonstration School library.

STUDENT LABOR

Some janitor service, waiting on tables, and work on the campus and in the post office and library, is done by student labor. Students are cautioned, however, against counting too much on this manner of defraying any great part of the college expenses. Applications for student labor should be made in advance to the President. The amount that may be earned in any one quarter is determined by the number of hours a student works. During session 1942-1943, Federal funds were available for a number of students.

PLACEMENT BUREAU

The Mississippi Southern College maintains an active program of teacher placement and attempts to keep in constant touch with the demands and requirements of the schools of the state and with the qualifications of its graduates who are trained for the teaching profession. The Alumni Secretary is director of this service, and cooperates with the directors of departments in promoting the work of the Placement Bureau. A secretary is employed full

time in actively furthering the service of the Bureau. The College has many calls for rural, elementary, high school teachers, and teachers of special subjects. Those students who have made good records in their major fields and in the training schools, are always in demand. The Placement Bureau endeavors to serve the graduates, and the schools of the state by selecting carefully those whom it recommends to various positions.

Students with degrees and a good scholastic record are frequently in demand for teaching positions.

A carefully organized system of records pertaining to the student's work in both his academic and professional course is on file. Confidential information organized in the most approved form for the convenience of school officials is available within a short notice.

Student credentials supply the following data relative to each candidate: (1) teaching experience in the public schools; (2) the curriculum pursued; (3) number of college hours in major and minor fields; (4) academic record in college; (5) comments from critic teacher, instructors, and various superintendents under whom the students have taught, also character references.

The College assists in placing many students in desirable positions each year. The institution is anxious to help satisfy the need of the public schools by preparing efficient teachers, and by assisting its students to positions for which they are best prepared.

Any person interested may secure further information from the Director of the Alumni Placement Service at The Mississippi Southern College.

The service is available only for members of the Alumni Association who hold degrees or will receive degrees during the year in which they enroll in the Placement Office.

Enrollment of members of the Alumni Association requires payment of a two dollar registration fee in addition to the one dollar per year Alumni dues. These fees are payable to the College Secretary.

BOOKSTORE

The College Book Store, in the Administration Building, is operated without profit for the benefit of the students. It carries text books and necessary school supplies.

WIMPY'S

Wimpy's, the campus store, is operated by the Christian Federation. The shop serves drinks, candies, sandwiches, hamburgers, smokings, etc. The profits go into the treasury of the Christian Federation for program expenses.

HISTORICAL

Mississippi Southern College, under the name of Mississippi Normal College, was founded by an act of the Legislature in 1910. No appropriation was made for the purchase of site or for erection of buildings, but counties were authorized to issue bonds to offer as a bonus for the location of the college. Three southern counties vied with one another for the privilege, but Hattiesburg in Forrest County, was awarded the location for a cash bonus of $260,000, a gift of 840 acres of land and other valuable consideration.

Hattiesburg is a city of about twenty-five thousand people, located seventy miles from the Gulf Coast. One hundred seventeen miles from New Orleans, and ninety-eight miles from Mobile. Thus the famous playgrounds and points of historic interest in the far Mid-South are easily accessible. Its nearness to the Gulf insures a mild, equable climate in summer and winter.

Buildings were erected and the College opened its doors in 1912.

The purpose of the founders of the College was to train teachers for service in the public schools of Mississippi, and at the time of establishment of the College it was recognized that the greatest need of improvement lay in the rural schools. Salaries were low and the school term short. Many teachers did not even have adequate high school training. In order to enable these teachers to profit by additional training, a Certificate Course was placed within their reach. The consequence was that hundreds of rural school teachers entered college, took professional and content courses, and have gone back and been active factors in the wonderful progress of the country schools during the past twenty-five years. In addition to the Certificate Course leading to a five-year state license, a Diploma Course, leading to a professional life license, was offered until 1929.

In 1922 the Legislature authorized the College to grant degrees. Pre-college work was discontinued and curricula were set up leading to the degree of Bachelor of Science. In 1924 the name was changed to State Teachers College. In 1934 the Trustees authorized the granting of the degree of Music Bachelor. A study made by one of the members of the faculty in 1928 showed that of the then total 447 students who had taken a degree, 36.2 per cent were teachers in high schools, 22.7 per cent were serving as superintendents of schools, 18.4 per cent were principals of schools, 5.7 per cent were grade teachers, and 17 per cent were engaged in other than school work.

Mississippi Southern College is a member of the Southern Association of Colleges and Secondary Schools, and an Associate Member of the National Association of Schools of Music.

The Legislature of 1940 gave the College its present name.

SUMMARY OF ENROLLMENT AND GRADUATES

Enrollment for 1941-1942

Counties represented	71
Other states represented	15
Enrollment by extension	420
Enrollment by correspondence	564
Demonstration school enrollment	465
Enrollment of college men in residence	208
Enrollment of college women in residence	712
Enrollment of senior class	311
Enrollment of junior class	314
Enrollment of sophomore class	136
Enrollment of freshman class	132
Enrollment post graduates	21
Enrollment special unclassified	6
Degrees conferred 1941-1942	185

RESIDENT ENROLLMENT DURING THE HISTORY OF THE COLLEGE—1912-1942

Enrollment by years:

1912-1913	876
1913-1914	912
1914-1915	985
1915-1916	1334

SPECIAL INFORMATION

Expenses

Dormitory Students

Incidental Fees	$ 40.00 per quarter
Room	18.00 per quarter
Board	51.00 per quarter
Laundry	6.00 per quarter
Total expenses per quarter	$115.00
Payable each quarter on entrance	$ 77.50
Balance payable at beginning of second half of quarter	37.50
	$115.00

Day Students

Incidental Fees	$ 40.00
Late Registration Fee	$ 2.00

IMPORTANT NOTICE:

Announcements concerning expenses, fees, and furnishings are subject to change without notice and may not be regarded as binding obligations of the college. In times of changing conditions, it is especially necessary to have this definitely understood.

All Ration Books must be presented to dietitian when entering dining hall.

Laboratory Fees—Home Economics 26, 50, 104, 105, 125, 135, 150, 180, 200	$1.50
Home Economics Education 185, 186	1.50
Home Economics 37, 85, 115, 138, 197	3.00

A fee of four dollars per course is charged in the Division of Commerce.

Should a student withdraw three days after date of registration all fees will be refunded.

Should a student withdraw for any reason prior to mid-term of any quarter fifty (50%) per cent of **Incidental Fee** will be refunded and pro rata percentage of **board** and **laundry** fees will be refunded.

Should a student withdraw after mid-term of any quarter under no circumstances will any part of Incidental Fee be refunded, but a pro rata percentage of **board** and **laundry** fees will be refunded.

Special or Laboratory Fees will not be refunded under any circumstances after a student has been in attendance for three days.

Notice: All students, faculty officers and employees rooming in dormitories are required to take their meals in the college dining hall. Others who take part of their meals in the dining hall are charged per meal.

No deduction in living expenses is made for an absence of less than two continuous weeks, and then only when the absence is necessary and is reported to the Secretary's office five days in advance. No reduction of board is made on account of late entrance.

Special Examination Fee $1.00

Graduation Fee—A graduation fee of six dollars for a degree, is payable three months before graduation. This includes membership in Alumni Placement Service.

TUITION

Piano	Two private lessons a week	One lesson a week

Class Work

Theoretical Courses, per quarter hour.....$2.50

School Music Methods Courses, per quarter hour..... 2.50

Piano, Violin and Vocal Method Courses, per quarter hour..... 3.00

A laboratory fee of $1.50 per quarter will be charged for courses in appreciation of music, history of music and school music fundamentals (Music 95 and 96).

Classes in Sight Singing and Ear Training, Ensemble, etc., are free to students taking the full music course leading to either the Mus.B. degree, the B.S. degree with Music Education as a major, the A.B. degree with Music as a major, or the A.B. degree with Music as a minor.

Practice

Piano rental for one hour daily per quarter.....$3.00

Each additional hour per quarter..... 1.00

Business Regulations

1. All tuition is payable strictly in advance, at the beginning of each six weeks term.

2. No lesson is given until fee is paid and receipt presented to instructor.

3. Under no condition is music tuition refunded. In case of protracted illness, the balance is allowed upon a subsequent term.

4. Lessons lost by absence or tardiness of pupil will not be made up unless due notice is given the instructor.

5. Assignment of periods for lessons and for practice will be made upon personal application to the Director. Before applying for the assignment, the student should have a complete schedule of all his other classes.

Loss and Damage—While no deposit is required for this purpose, any amount charged to a student must be paid before examinations are permitted.

Resolution

The Board of Trustees of State Institutions of Higher Learning has adopted a resolution that all students attend-

ing Mississippi Southern College except students living with their parents in the City of Hattiesburg or within daily walking or driving distance of the College, live in the dormitories provided on the campus up to the capacity of the dormitories. The resolution further provides that all students shall be required to make use of athletic facilities provided on the campus and to pay any fee that may be levied for such use.

The fee for maintenance of the athletic and physical education program is included in the incidental fees listed among expenses for attendance.

ORGANIZATION

Mississippi Southern College is organized into a Junior College Division and a Senior College Division, the work of the freshman and sophomore years being offered in the Junior College and that of the junior and senior years in the Senior College.

The Junior College curricula continue the general cultural studies begun in high school and lay a foundation for the more specialized work which is to follow. The primary purposes of these curricula are (1) basic education, insuring contact with the social, cultural, biological, and physical background of civilization and with the discipline and tools necessary for advanced work; (2) orientation, providing the students with the exploratory contacts that will enable the institution to assist them to make wise selection of specialization for their later work. Courses in education and psychology offered at the junior college level are mainly such as should be of value to any citizen in understanding educational problems and the place of education in contemporary life.

The Senior College courses are mainly either professional courses or intensive subject-matter courses for students who have selected their major fields of interest.

Twenty departments and branches of instruction are organized into seven groups representing related fields of study. The seven fields are as follows: (1) Health and

Physical Education; (2) Languages and Literature; (3) Music; (4) Natural Sciences and Mathematics; (5) Practical and Fine Arts; (6) Professional Studies; (7) Social Studies.

Educational Guidance — In order that Junior College students may have abundant opportunities for assistance in planning their courses of study and for personal and educational advice in every phase of their academic work, a number of members of the faculty serve as advisers to the Junior College students. Incoming students will be assigned to advisers and will be expected to consult their advisers at least once each quarter and at such other intervals as the advisers may direct. All students are, however, encouraged to consult their advisers at any time irrespective of these requirements. These members of the faculty act in the capacity of general educational advisers rather than as representatives of their respective departments.

Senior College students who are working under curricula leading to the B.A. degree or curricula for the training of high school teachers choose their electives with the advice of the professor in charge of their first major. Those who are working under curricula for training of upper elementary and lower elementary teachers choose their electives with the advice of the Head of the Department of Education. These department heads are also the general educational advisers for students in the upper division.

All courses in a student's major and minor fields must be selected with the approval of the student's major professor.

No program of study is final until it has been approved by the Dean.

Students who are doing unsatisfactory work are urged to take advantage of the instructor's daily office hour for conferences.

EXAMINATIONS

Examinations shall be held on the last two days of the fall, winter, and spring quarters, the examination schedule being as follows:

First Day:

8:00 A. M. to 10:00 A. M.—FIRST HOUR classes
10:00 A. M. to 12:00 A. M.—SECOND HOUR classes
1:30 P. M. to 3:30 P. M.—THIRD HOUR classes
3:30 P. M. to 5:30 P. M.—SEVENTH HOUR classes

Second Day:

8:00 A. M. to 10:00 A. M.—FOURTH HOUR classes
10:00 A. M. to 12:00 A. M.—FIFTH HOUR classes
1:30 P. M. to 3:30 P. M.—SIXTH HOUR classes
3:30 P. M. to 5:30 P. M.—EIGHTH HOUR classes

During each of the two terms of the summer quarter the last regularly scheduled meeting of a class shall be used for examination purposes.

No final examination is permitted except on examination days.

A student who is absent from the examination without valid reason approved by the Dean forfeits credits for the quarter. Students will be charged a fee of $1.00 for special examination unless excused by the Dean.

At the end of their graduating quarter, seniors are exempt from final examinations in those courses in which their class grade is B or above, provided they have made an average of B or above in all academic work for each of the two preceding quarters.

GRADING SYSTEM

A—indicates the very superior group, normally about five per cent of the class.

B—indicates the superior to average group, about twenty per cent of the class.

C—indicates the average group, about fifty per cent of the class.

D—indicates the inferior to average group, about fifteen per cent of the class.

E—indicates failure with condition. It becomes an F if the condition is not removed within the next calendar year, or, if the student is not in residence during the year, within the next quarter of attendance.

F—indicates failure without condition, necessitating repetition of the course.

Inc—indicates an incomplete record. An "Inc" becomes an F if the work is not completed within the next calendar year, or, if the student is not in residence during the year, within the next quarter of attendance.

W—indicates withdrawal for justifiable reasons.

Partial or Fractional Credits—No credits are given for less than twelve weeks of continuous work except in such courses as are distinctly organized into six-week courses.

STUDENT RANK

A student is ranked as—

Freshman when he has fewer than 41 hours.

Sophomore when he has as many as 41 hours and fewer than 90 hours.

Junior when he has as many as 90 hours and fewer than 132 hours.

Senior when he has 132 or more hours.

DEFINITIONS

The college sessions include four quarters, beginning in September and ending in August.

A quarter consists of twelve weeks.

A "credit" (called also quarter-hour, or "hour") measures college work and represents the credit received for the successful pursuit of the college subject for one quarter (twelve weeks), one sixty-minute class period per week (laboratory subjects double length period). For example, a subject meeting four times a week for one quarter gives four credits. A credit is presumed to require from one and one-half to two hours of preparation for each recitation. (For laboratory double-period, one-half to one hour of preparation).

Course Numbers have the following meaning:

Nos. 1-49 First Year Courses—Freshman.
Nos. 50-99 Second Year Courses—Sophomore.
Nos. 100-149 Third Year Courses—Junior.
Nos. 150-199 Fourth Year Courses—Senior.

Numbers followed by an "S" (as English 25s) indicate double courses which terminate in half quarter. These are four-quarter hour courses and meet twice a day.

Numbers followed by an "X", (as Ed. 20x) indicate double courses which terminate in a half quarter. These are two-quarter hour courses and meet once a day.

Numbers followed by a "Z", (as Library Science 135z) indicate double courses which terminate in a half quarter. These are one-quarter hour courses and meet twice a week.

A "Memorandum of Credits" is a statement showing the courses completed and credits earned by the student. Each student is entitled to one copy of his Memorandum of Credits and to have it posted and checked in the records office at least once in each session. A fee of fifty cents is charged for a second copy of this document.

CERTIFICATE TO TEACH

Class A Professional License—Bachelor of Science and Bachelor of Music degrees from Mississippi Southern College are under the laws of Mississippi valid as life professional licenses to teach in any of the schools of the state. The same law grants a five year elementary license upon the completion of a two year certificate curriculum.

Students who take the Bachelor of Arts degree may receive a Class A life license to teach if they have included in their program twenty-eight hours of education, psychology, and methods courses to meet state requirements. Practice teaching is necessary for a life license. Students receiving the Bachelor of Arts degree may secure licenses in some class below Class A if their education credits qualify them for such a license, but not for a Class A license.

Class B Professional Secondary License — good for three years, based on one hundred thirty-five quarter hours of college work, including eighteen quarter hours professional training with emphasis on secondary education, renewable on eight quarter hours work, six times.

Class B Professional Elementary License — good for three years, based on one hundred thirty-five quarter hours of college work, including eighteen quarter hours professional training with emphasis on elementary education, renewable on eight quarter hours work, six times.

Class C Professional Secondary License—good for two years, based on ninety quarter hours of college work, including thirteen and one-half quarter hours professional training with emphasis on elementary education, renewable on eight quarter hours work, six times.

Class C Professional Elementary License—good for two years, based on ninety quarter hours of college work, including thirteen and one-half quarter hours professional training with emphasis on elementary education, renewable on eight quarter hours work, six times.

Class D Professional Elementary License — good for one year, based on forty-five quarter hours of college work, including nine quarter hours professional training with emphasis on elementary education, renewable on eight quarter hours work, six times.

Class E Provisional Elementary License — good for one year, based on graduation from an approved high school and eighteen quarter hours of professional college work,

renewable four times on eight quarter hours work one-fourth of which must be professional.

Class F Provisional Elementary License—good for one year, based on graduation from an approved high school and nine quarter hours of professional college work, renewable four times on eight quarter hours work one-fourth of which must be professional.

Renewal of License—Any license, including Mississippi Southern College certificates, may be renewed by taking the regular student load during a school term of six weeks under the laws of the State of Mississippi and the regulation of the State Board of Examiners.

ACADEMIC HONORS

Departmental Honors—To be eligible for Departmental Honors a student must have been in residence at Mississippi Southern College for six quarters during his junior and senior years; during these six quarters he must have received no grade below "C" in any subject; and during his four college years he must have earned in the field of his first major and in one related field two and one-third quality points for each hour credit. Quality points earned in other institutions may not off-set deficiencies accumulated at Mississippi Southern College.

General and Research Honors—Students may be admitted to candidacy for General Honors or Research Honors on the following conditions: (1) The student must be in his third or fourth quarter of residence in the Senior College Division at Mississippi Southern College. (2) He must be recommended for admission by the head of the department in which he wishes to work for honors. (3) The student must have earned in the Senior College Division at Mississippi Southern College twice as many honor points as hours. (4) He must make a score on a standard intelligence test indicating an intelligence quotient of at least 115. (5) He must be approved by the Honors Committee, who will consider, in addition to other qualifications, his character and personality.

Candidates for General or Research Honors are excused from penalties for class absence. They are excused from all course examinations during their last three quarters of residence. They must register to read for honors during at least two of these quarters. In lieu of these course examinations, candidates for general honors take a

comprehensive examination in their honors field and related fields. This examination is given near the close of the student's final quarter of residence. Students who pass this examination with distinction and otherwise meet the requirements for General Honors are granted such honors at the time of their graduation from the college. In lieu of these course examinations, candidates for Research Honors take an examination on their chosen problem of investigation in its relationship to their honors field and related fields. Candidates passing this examination and otherwise meeting the requirements for Research Honors are granted such honors at the time of their graduation from the College.

Candidates for General Honors and Research Honors may receive departmental honors if qualified, even though they failed to receive the class of honors for which they are candidates. Candidates may be barred from graduation by the Honors Committee, if in the opinion of that committee, they have abused the privileges granted them as honors candidates and have failed to make satisfactory progress in their senior year.

Candidates for General Honors earn four to eight hours in their honors field by reading under the direction of an "honors professor" designated by the Honors Committee. Candidates for Research Honors earn four to eight hours in research investigation under the direction of an "honors professor" designated by the Honors Committee. Credits so earned by either class of honors candidates may be submitted for required courses in the candidate's honors field with the consent of the head of the department concerned.

Similar groups, which must be attended by honors candidates, will be organized as directed by the Honors Committee, and all members of the College faculty are subject to call to assist in the conduct of these groups and in direction of candidates in their work.

In order to receive either General Honors or Research Honors, a candidate must (1) pass all courses of his senior year with no grade below C; (2) be recommended by his honors professor as having done satisfactory work in his reading or research; (3) pass his honors examinations with distinction; (4) maintain throughout his senior year the same high standards of conduct, intellectual activity, and good citizenship which were required for his admission to candidacy for honors. A part of the examination of the candidate for Research Honors shall consist of the submis-

sion to the examining committee of a satisfactory written account of his investigations. This account must be submitted one week prior to the date set for the remainder of the candidate's honors examination. In each case the chairman of the examining board shall report results to the Honors Committee, which alone shall have the power to grant honors.

BEST CITIZEN AWARDS

At the beginning of each academic year the President shall appoint a secret committee of nine from the faculty whose duty it shall be near the end of each academic year to select two students who through superior character, leadership, and scholarship, have made the greatest contribution to the life of the college during the year. One man and one woman are selected. Upon recommendation of this committee the students so selected shall receive the BEST CITIZEN awards as a public recognition of services.

Since the institution of the Best Citizen Awards in 1936 the following students have received such recognition: 1936—Miss Mary Evelyn Blanks and Mr. Shelby Rogers; 1937—Miss Katie Ruth Field and Mr. Doris W. Rivers; 1938—Miss Lida Frances Gilliam and Mr. Thomas Carruth; 1939—Miss Virginia Cole and Mr. Buell Evans; 1940—Miss Ruth Martin and Mr. F. J. Dickey; 1941—Miss Hazeline Wood and Mr. Gerald Adams; 1942—Miss Dulcie Davidge and Mr. Leonard Lowrey.

ABSENCES

A student who is absent from any class as many as three times for a four-hour course, and two times for any other class, during the quarter, without legitimate excuse, will be barred from final examinations in that class and a grade of F will be recorded against him in that course. Instructors must make regular reports on the first Monday in each month to the Chairman of the Attendance Committee of all unexcused absences for the month preceding. It is understood that a student must justify his absences when he returns to class; and if he fails to do so, the instructor is requested to report the absence incurred as unexcused. After any absence is reported, the instructor has no power to change it. Three unexcused tardies will be counted as one unexcused absence. **Absences on a day preceding or following a holiday count double.**

Young women living in the dormitories must secure permits from parents or guardians for visiting off the campus and out of town. General permits are not recognized by the college.

Honor Privileges:

Students who have been in residence for three quarters, filed an application, and have earned twice as many honor points as hours are exempted from penalties for absence so long as they maintain an average of "B" on completed courses.

Prolonged Absences:

A student who is absent for any reason will be required to make up by special tests all the work missed. No credit in any course is allowed if the student is absent more than one-third of the number of recitations.

Chapel Attendance:

All students are required to attend chapel on Monday of each week. For each unexcused absence two quality points will be deducted from the student's record in the Registrar's Office.

LIVING ACCOMMODATIONS

All students are required to live in the college dormitories and take their meals in the dining hall. This regulation does not apply to students living with parents in or near Hattiesburg.

Dormitory assignments are made by the Financial Secretary after room reservation fees have been received. Room assignments are made by the hostesses in charge of the dormitories.

The room reservation fee is $8.00 for each student. No room deposit can be refunded unless the reservation is cancelled ten days prior to the opening of the quarter for which the reservation is made. These fees may be sent directly to the College Secretary.

Rooms are equipped with the following furniture: two single beds, a dresser, a chest of drawers, two chairs, and a study table. Students must furnish all linens, bed covering, curtains for windows and for closet doors.

If the dormitories are filled, living accommodations outside the dormitories must be selected from the list approved by the college authorities, and may not be changed except by the consent of the Dean of Women. No student is allowed to change his place of residence during the quarter except under unusual conditions. The approved lists may be obtained from the office of the Dean of Women.

Further information concerning housing regulations may be obtained from the office of the Dean of Women.

All students not living in their own homes, whether rooming in the dormitories or in private homes or rooming houses, are subject to the regulations, control, and supervision of the College. The College uses its efforts to safeguard such students, but no responsibility can be assumed.

PRACTICAL HYGIENE

All students who are reported to the Dean by hostesses of the dormitories or by the housekeepers off campus, as being grossly negligent in care of rooms or in personal hygiene will be warned, and if this state of affairs is not remedied immediately, all academic credit will be withheld until a report of positive improvement is received.

Requirements for Boys Dormitory

(1) Four sheets
(2) Two pillow cases
(3) Sash curtains for windows (39 x 35)
(4) Bed spread
(5) Towels, and personal toilet articles

Requirements for Girls Dormitory (Minimum)

(1) Four sheets
(2) Two pillow cases
(3) Window curtains (windows 7 x 3½)
(4) Curtain for clothes closet (opening 7 x 3)
(5) Bed spread
(6) Towels, personal toilet articles, and cosmetics

SPECIAL REGULATIONS

CONCERNING REGISTRATION, REPORTS AND GRADUATION

Admission

By Certificate—Students are admitted to the College upon the presentation of an acceptable certificate showing fifteen units of high school work from an accredited high school. These certificates must be sent by mail in advance, direct from the principal of the school attended. In all cases the units presented must include:

English	3 units
Mathematics	2 units
Social Studies	1 unit

Note:—A total of not more than four units in the following subjects can be accepted: Vocational agriculture, domestic science, commercial studies, manual training, and music.

By Examination—Teachers above high school age who have not had fifteen required units may secure admission by examination.

By Transcript—Students from colleges or universities of recognized standing are admitted to this College on the basis of an official transcript of credits mailed directly to the Office of the Registrar from the institutions previously attended. In cases of students transferred from recognized junior colleges all credits earned in junior college remain a part of the students' records. However, specific course requirements for graduation at Mississippi Southern College must be met. Ninety-six of the one hundred ninety-two hours offered to satisfy requirements for any degree must be earned in a senior college after admission to the junior class.

Vaccination—The College Physician requires all new students either to be vaccinated on entrance or to submit proof of recent successful vaccination.

Physical Examination—Each student, during his first quarter of residence each session, must take a physical examination under the direction of the College Physician and the Department of Health. Physical education course may

be assigned in accordance with the results of this examination. The College reserves the right to require a physical examination of any student at any time, and no student's registration is complete without a physical examination.

LOAD OF WORK

The normal student load is twelve to eighteen hours. Students who make A's in eight hours and B's in the remaining eight or more hours are permitted to take twenty hours during the next quarter of attendance.

Seniors may take twenty hours during any one of their last three quarters provided they shall not have made a grade lower than C during the previous quarter.

REDUCED LOAD

The Scholarship Committee may, if it deems wise, restrict any student's load to an amount not exceeding the number of hours on which the student received credit during his preceding quarter of residence. A student who has failed or conditioned eight credit hours or more during each of two consecutive quarters is automatically suspended from the College for the next succeeding quarter, summer session excepted.

REGISTRATION

Students should consult the academic calendar, page 5, for the schedule of registration, placement tests, assembly, and class meetings during registration week.

Late Registration—A fee of two dollars is charged for registering after registration day. No student may enter after the first day of the third calendar week of any quarter. No student who enters after the first week may take more than twelve hours, but those entering any time during the first week may take a full load of sixteen hours, provided they make up the work missed in all classes.

Students registering for a half quarter may not register for a full load after the second day of the term. Seniors expecting to graduate at the end of a half quarter term must register within the first two days of the term regardless of load.

Program Changes—No change of student's program is allowed after the first week. Changes, after consultation with the Dean, may be made during the first week, but a fee of one dollar is charged for each change after the second day.

Under no circumstances may a course be dropped without permission of the Dean. Courses dropped after the third week, for any reason except prolonged illness, are recorded as "Failure."

Activities Courses—Due to the National War Emergency a greater emphasis is being placed on Physical Education. All students are required to register in the Physical Fitness program. No one will be excused from this requirement unless approved by the college physician or the Dean.

REQUIREMENTS FOR GRADUATION

Residence Attendance—A degree will not be granted without residence attendance of three quarters and the last quarter must be in residence, except that a maximum of four quarter hours of correspondence or extension credit may be earned after the last quarter of residence. At least forty-eight hours must be earned in residence.

Transfer students must take at least twelve hours of residence work in their majors at this institution.

Quality Requirements—Each grade of A carries three quality points for each quarter-hour of credit. Each grade of B carries two quality points for each quarter-hour of credit. Each grade of C carries one quality point for each quarter-hour of credit. Grades of D carry no quality points. A student must make as many quality points as the total number of quarter-hours required for graduation. It is provided that high grades in institutions from which credits are transferred to this College may not offset low grades made in this institution.

A student may not major in a department in which he has earned fewer quality points than hours.

Junior College courses are numbered below one hundred. Senior College courses are numbered above one hundred. Junior College students are not permitted to register for Senior College courses. Exceptions to this regulation may be made by special permission of the Dean to students of sophomore classification who wish to register for professional courses in the Senior College in order to qualify for sophomore license to teach, and also to mature and experienced teachers who have not met requirements for admission to the Senior College. Senior College students may register for Junior College courses. However, candidates for a degree must complete at least sixty-eight hours in Senior College courses.

Since the policy of the College is to require evidence of ability to do independent work in a student's chosen field in courses in the Senior College Division, juniors and

seniors who register for courses numbered below one hundred in any department or division of the College except physical education, music, natural science, and practical and fine arts, are expected to do some research type work in addition to the work regularly required of freshmen and sophomores in the same courses.

Neither a certificate nor a degree will be granted to a student who is delinquent in practical hygiene or physical education.

After a student has met the scholarship requirements for a certificate or degree, the question of his graduation shall be submitted to a vote of the faculty. If a majority of the faculty shall vote favorably, the President is authorized to grant the certificate or degree.

Quarter Hours—An applicant for a degree must complete 192 quarter hours, including the core-requirements as listed under the particular degree curriculum pursued, and the major and minor requirements outlined elsewhere in the catalog. Not more than six hours of practical music or twelve hours of physical education may be counted toward a degree except by students who are majoring or minoring in music or physical education.

A student is allowed six years in which to meet the requirements listed in the catalog under which he entered.

PRE-PROFESSIONAL CURRICULA

Pre-Medical

Freshman year—

English 25-26-27	9 or 10 hours

Freshman year—

English 25-26-27	9 or 10 hours
French 25-26-27	12 hours
History 27-28	8 hours
Social Science 25-33	8 hours
Mathematics 32-35	8 hours
Electives	3 hours

Sophomore year—

English 75-76-80	12 hours
French 75-76-77	12 hours

History 61-62-63 ..... 12 hours
Economics 55 ..... 4 hours
Sociology 63 or Psychology 65 ..... 4 hours
Electives ..... 4 hours

Pre-Engineering

Freshman year—

Mathematics 32-35 ..... 8 hours
Science 25-26-27 ..... 12 hours
English 25-26-27 ..... 9 or 10 hours
Social Science 25-55 ..... 8 hours
Electives ..... 3 hours

Sophomore year—

Mathematics 75-76 ..... 8 hours
English 75-76 ..... 8 hours
Physics 80-81-82 ..... 12 hours
Mathematics 175-176 ..... 8 hours
Electives ..... 12 hours

Pharmacy

The first year of the four year pharmacy course can be obtained as follows:

Science 25-26-27 ..... 12 hours
English composition ..... 9 or 10 hours
Science 37-38-39 ..... 12 hours
Electives ..... 15 hours

Students wishing to pursue a pre-professional curriculum and receive a degree from the College should plan to remain in residence four years and should meet requirements for the Bachelor of Arts degree as set forth on the following pages.

DEGREE CURRICULA

Degrees are awarded at the end of the third and fourth quarters only. Candidates must file applications for degrees not later than the beginning of their last quarter in residence. A Bachelor of Science degree or a Bachelor of Music degree is by law a professional license to teach in the public schools of Mississippi for life. (House Bill 396, Section 1, Chapter 201, Acts 1922).

CURRICULA LEADING TO BACHELOR OF SCIENCE DEGREE
LOWER ELEMENTARY CURRICULUM

Academic Core Requirements:	Hours
English Composition and Grammar	9 or 10
English 117 (Materials of Children's Lit.)	4
English (Sophomore Literature)	8
Sci. 22, 23, 24	12
Fine Arts 25, 89 (Drawing)	10
Health 27 or 79 (Hygiene)	6
Soc. Studies (Including History 29)	12
Music 95, 96 (Public School Music)	8
Library Science 29	1
Activities Courses (1 hour each quarter during freshman and sophomore years)	6
Phys. Ed. (Materials and Methods) (143)	4
Total	80 or 81

Professional Core Requirements:	
Ed. 20 (Introduction to Education)	2
Psy. 65 (Elementary Psy)	4
Ed. 66 (Fundamental Prin. of Elem. Ed.)	4
Ed. 101 (Teaching of Arithmetic in Elem. Grades)	4
Psy. 116 (Child Psy.)	4
Ed. 103 (Teaching of Social Studies)	4
Ed. 107 (Teaching of Reading and Language)	4
Ed. 169 (Tests and Measurements) or Ed. 162 (Curriculum)	4 or 2
Ed. 182 (Observation and Practice Teaching)	10
Total	38 or 40

Grand Total of Core Requirements	**111 to 113**
One major of thirty-six hours	36
Two minors of sixteen hours each	32
Free electives to complete total	...
Total	192

Students making a superior showing on placement tests in English and science may be excused from a part of the work of the freshman year in these subjects. In such cases academic electives are substituted for omitted

courses. For details of the plan, see descriptions of courses in the departments concerned.

Science 37, 39, and 147 may be substituted for 22, 23, 24. Transfer students who have completed a year sequence in social studies before entering Mississippi Southern College may substitute as many as twelve hours of the eighteen required in social studies under this curriculum.

Electives of the freshman and sophomore years should be in academic rather than professional fields. They are selected by the student and his faculty adviser in conference, in the light of the student's previous educational record, for the purpose of rounding out the student's general education and exploration of fields in which the student may wish to major or minor.

Students are required to select one major of thirty-six hours and two minors of sixteen hours each from the lists below. These majors and minors must be selected by the end of the sophomore year, and the junior and senior years largely devoted to them. Elective courses previously taken may count toward either a major or minor. For specific information, consult the departmental requirements for each major and minor under **Departments of Instruction.**

Majors: Fine arts, health and physical education, English, history, geography, social science.

Minors: Art, biology, geography, health, physical education, history, social science, chemistry and physics, German, French or Spanish, science 22, 23, 24, 147.

UPPER ELEMENTARY CURRICULUM

Academic Core Requirements:	Hours
English Composition and Grammar	9 or 10
English 117 (Materials of Children's Lit.)	4
English (Sophomore Literature)	8
Science 22, 23, 24	12
Geography 33, 110 (Prin. of Geog. and Geog. of U.S.)	8
Fine Art 25, 26a, 89 (Drawing)	10
Health 27 or 79 (Hygiene)	6
Soc. Studies (Including History 29)	12
Music 95, 96 (Public School Music)	8
Library Science 29	1
Activities Courses (one hour each quarter during freshman and sophomore years)	6
Physical Ed. (Materials and Methods) 149	4
Total	88 or 89

Professional Core Requirements:

Ed. 20 (Introduction to Education)	2
Psy. 65 (Elementary Psychology)	4
Education 66 (Fundamental Principles of Elem. Ed.)	4
Psy. 116 (Child Psy.)	4
Ed. 105 (Teaching of Soc. Stud. in Up. Elem. Grade)	4
Ed. 109 (Teaching of English and Reading)	4
Ed. 169 (Tests and Measurements) or 162 (Curriculum)	4 or 2
Ed. 183 (Observation and Practice Teaching)	10
Mathematics 21 or Education 101	4
Total	38 to 40
Grand Total of Core Requirements	**116 to 119**
One major of thirty-six hours	36
Two minors of sixteen hours each	32
Free electives to complete total	---
Total	192

Students making a superior showing on placement tests in English and science may be excused from a part of the work of the freshman year in these subjects. In such cases academic electives are substituted for omitted courses. For details of the plan, see descriptions of courses in the departments concerned.

With the permission of the Head of the Department of Science and the Dean, students may substitute Science 37, 39, and 147 for Science 22, 23, 24. Transfer students who have completed a year sequence in social studies before entering Mississippi Southern College may substitute as many as 12 hours of the 18 required in social studies under this curriculum.

Electives of the freshman and sophomore years should be in academic rather than professional fields. They are selected by the student and his faculty adviser in conference, in the light of the student's previous educational record, for the purpose of rounding out the student's general education, and for exploration of fields in which the student may wish to major or minor.

Students are required to select one major of thirty-six hours and two minors of sixteen hours each from the lists below. These majors and minors must be selected by the end of the sophomore year, and the junior and senior years

devoted largely to them. Elective courses previously taken may count toward either a major or a minor. For specific information, consult the departmental requirements for each major and minor under **Departments of Instruction.**

Students should study the schedule for the entire year and prepare their yearly schedules so that they may be able to get the courses they need.

Majors: Fine arts, English, health and physical education, history, geography, economics, sociology.

Minors: Fine arts, biology, chemistry (12), and biology (4), geography, health, physical education, history, mathematics, economics, sociology, French, German or Spanish, science 22, 23, 24, 147.

HIGH SCHOOL CURRICULUM

Academic Core Requirements:	Hours
English Composition	9 or 10
English 75, 76 (Survey of English Literature)	8
Social Studies (including History 29)	18
Science 22, 23, 24 (electives 8, Math. 21 recommended)	18
Health 27 or 79 (Hygiene)	6
Library Science 29	1
Activities Courses (one hour each quarter during freshman and sophomore years)	6
Phys. Ed. (Materials and Methods)	4 or 5
Total	73 or 74

Professional Core Requirements:	
Education 20	2
Psy. 65 (Elem. Psy)	4
Psy. 119 (Ed. Psy. for High Schools)	4
Ed. 113 (Principles of High School Teaching)	4
Methods of Teaching in 1 Mj.	4
Ed. 185 and 186 (Observation and Practice Teach.)	10
Electives From the Following:	
Education 128	4
Education 155	4
Education 162	2
Education 169	4
Methods (2nd Mj. 4 hours)	6 to 8
Total	34 to 36

Grand Total of Core Requirements	**93 to 96**
Two majors of thirty-six to fifty-two hours each	72 to 104
Free electives to complete total	----
Total	192

Students making superior showing on placement tests in English and science may be excused from a part of the work of the freshman year in these subjects. In such cases academic electives are substituted for omitted courses. For details of the plan, see descriptions of courses in the departments concerned.

With the permission of the Head of the Department of Science and the Dean, students may substitute an introductory year course in biology, chemistry, or physics for Science 22, 23, 24. Transfer students who have completed 12 hours in social studies before entering Mississippi Southern College may substitute as many as 12 of the 18 hours required in social studies under this curriculum.

Electives of the freshman and sophomore years should be in academic rather than professional fields. They are selected by the student and his faculty adviser in conference, in the light of the student's previous educational record, for the purpose of rounding out the student's general education.

Note:—Students who are preparing themselves to be principals or superintendents may substitute Education 155 for another required course selected with the approval of the major professors and the Dean.

Students are required to select one of the **Major Groups for High School Curriculum.** The majors should be selected and recorded in the Registrar's office by the end of the sophomore year, and the junior and senior years devoted largely to meeting group requirements. Elective courses previously taken may count toward a major. For specific information consult the departmental requirements for each major under **Departments of Instruction.**

Students should study the schedule for the entire year, and prepare their yearly schedules so that they may be able to get the courses they need. Electives are chosen with the advice of the professor in charge of the field of the student's first major.

MAJOR GROUPS FOR THE HIGH SCHOOL CURRICIULUM

Group I. English and Foreign Language, (eighty to eighty-eight hours).

Group II. English and Social Studies, (96 hours).

Group III. The Social Studies, (84 hours).

Group IV. Mathematics and General Science, (96 hours).

Group V. Mathematics and Physical Science, (80 hours).

Group VI. Biological Sciences and Mathematics, (84 hours).

Group VII. Science, (92 hours).

Group VIII. Home Economics and Science, (88 hours), Costume Design, 4 hours; Home Furnishings, 4 hours; Foods, 12 hours; Clothing, 12 hours; Home Management, 8 hours; Health 133 and 134, 4 hours; Inorganic Chemistry, 8 hours; Organic Chemistry, 4 hours; Household Chemistry, 4 hours; Household Physics, 4 hours; Biology, 8 hours; Physiology, 4 hours; Fine Arts, 4 hours; Methods of Teaching Home Economics, 4 hours; Methods of Teaching Science, 4 hours.

Group IX. A student may select two majors from the following list: English, a foreign language, commerce, social studies, mathematics, science. In each major he must complete the requirements set forth for that major in some group other than IX, except a student may major in Chemistry under Group IX by completing 36 hours in the subject.

Group X. Health and Physical Education.
(A second major must be selected from those named in Group IX.)

Group XI. Music Education and Applied Music. See Music Curriculum.

Group XII. Vocational Home Economics. See curriculum outlined under Practical Arts.

CURRICULA LEADING TO BACHELOR OF MUSIC DEGREE

The Department of Music offers the following major courses:

(a) Pianoforte
(b) Voice
(c) Violin
(d) Violoncello
(e) Composition
(f) Music Education (School Music).

Admission

First, as a regular student. For any curriculum leading to a degree, the student must satisfy the entrance requirements of the College.

Students entering the piano, voice, violin, or violoncello course must give evidence that the preparatory course in piano, voice, violin, or violoncello has been completed.

Freshmen must take entrance examinations in Elementary Theory. Those passing may enroll in the regular required courses. Students who have had preparatory work and cannot pass the examination may also enroll for the regular required courses, but must do two hours of supervised work each week without credit in elementary theory until the entrance requirements are satisfactorily fulfilled.

Second, as a special student. In this case the student may elect any course his previous training has qualified him to pursue with profit, but no credit toward a degree is allowed such student.

The curricula include systematic and progressive instruction in theory, history, and practice of the arts to which they severally relate; also in those branches of language, philosophy, history, and criticism which bear most directly upon these arts, and without a knowledge of which success in the higher domain of arts is impossible. The literary departments of the College afford excellent opportunities to students to pursue studies related to the fine arts other than those included in the curricula of the department.

I. The Curriculum in Piano

The best principles of modern piano technique form the basis of teaching in this department. The student is thoroughly grounded in the classics, including Bach's Inventions and Well-Tempered Clavichord with Hanon, Czerny, Clementi, Chopin and Liszt Etudes, Sonatas by Mozart and Beethoven, and selections from the compositions of the best composers of the classic, romantic, and modern schools of composition.

In the junior and senior years of the course, concertos by Mendelssohn, Beethoven, Chopin, Grieg, Schumann, Liszt, and modern composers are studied and performed. Students to rank as freshmen must show that they have had equivalent of four years of serious study of the piano.

Candidates for the degree of Bachelor of Music must be prepared to present recitals selected from composers of the classic, romantic, and modern schools in their junior and senior years.

II. The Curriculum in Voice

The Department of Music recognizes the need of thorough fundamental training in the technique of singing as a prerequisite of the study of songs. The course of instruction is based upon the principles of the Italian School of Singing.

Attention is given to the study of breath control, voice placing, tone production, vowel formation, the development of resonance, range, flexibility, tone color, and style. Song literature of the classic and modern schools is given to build an adequate repertoire, as well as to enrich and broaden the musical experience and appreciation of the student. Upon graduation the student must possess a repertoire of recitatives and arias from the standard oratorios, representative operatic arias as well as a repertoire of songs from the English, French, Italian, and German schools. Students to be classified as freshmen in the vocal degree course must show by examination that they have the technical and musical development equivalent to one year of vocal study as well as preparatory piano.

Candidates for the degree of Bachelor of Music must be prepared to present recitals of standard songs and arias selected from the classic and modern schools of composition in their junior and senior years.

III. The Curriculum in Violin

It is the aim of the Violin Division to offer instruction that will thoroughly train the student to meet the demands of the orchestra and concert violinist as well as to prepare for the field of teaching. Throughout the course careful attention is given to the development of technique, musical style, interpretation, and musicianship. Special emphasis is placed on ensemble in the advanced classes.

The material studied is selected according to the individual needs of the student from the following studies: Sevcik, Leonard, Kayser, Mazas, Schradieck, Kreutzer, Rode, and others. For the development of style and interpretation sonatas by Tartini, Nardini, Handel, Haydn, and Bach are used, and concertos by Viotti, Rode, DeBeriot, Mendelssohn, and Wieniawski. For graduation, selections are made from concertos by Beethoven, Bruch, Mendelssohn, Vieuxtemps, and others of equal difficulty, and miscellaneous compositions from Paganini, Sarasate, Wieniawski, Hubay, and representative modern composers.

Candidates for the degree of Bachelor of Music must be prepared to present a recital from composers of the classic, romantic, and modern schools in their junior and senior years.

IV. The Curriculum in Violoncello

The aims of this division are the same as those of the Violin division.

The material studied is selected according to the individual needs of the student from the following studies: Dotzauer, Grutzmacher, Duport, Popper, and Piatti. For development of style and interpretation sonatas by Coverette, Locatelli and Boccherini, and suites for Violoncello alone by J. S. Bach, and Concertos by Romberg, Davidoff, Servais, Popper, Golterman, Saint-Saens, Lalo, Haydn, Dvorak, D'Albert and Schumann. Concert pieces by Tchaikowsky, Davidoff, Popper and Boellman.

Candidates for the degree of Bachelor of Music must be prepared to present a recital of selected composers of the classic, romantic, and modern schools in their junior and senior years.

V. The Curriculum in Composition

This course offers special study in the practical writing of original works for instruments or voice, including the

larger forms such as the Sonata-Allegro form, Variations, Art songs, Anthems, and other forms of freer content.

The latest developments distinctive of modern harmony, the various melodic, and rhythmic idioms of the present day are made available to the student through discussion and practical use.

The course in Advanced Composition is given by private instruction only, and is designed for the talented student who is especially qualified to enter the field of musical composition.

VI. The Curriculum in Music Education

The teaching of music in the public schools is now considered the work of a specialist of broad training. The importance of laying a thorough musical foundation in the grades is generally recognized and calls for great ability in the teacher of music. In the high school, music is now accorded a place of importance, and the demand for teachers who can organize and direct choral, instrumental, theoretical, and appreciation courses is increasing from year to year.

The courses in public school music supervision are designed to give not only thorough and practical training in music pedagogy but also adequate preparation in practical and theoretical music, psychology, education, and cultural subjects.

The degree of Bachelor of Science is conferred upon completion of the four year curriculum. There is an increasing demand for supervisors of music and junior and senior high school music teachers holding the Bachelor's degree. This course offering a degree combining music and education is planned to meet this demand in the field of music education.

PIANO MAJOR

(Leading to the degree of Bachelor of Music)
Freshman Year

Piano 25a, 26a, 27a, (two lessons a week)	3	3	3
Theory 34, 35, 36 (Including Keyboard Harmony)	3	3	3
Sight Singing 37a, 38a, 39a	1	1	1
Ear Training 37b, 38b, 39b	2	2	2
Survey of Music Literature 43, 44, 45	3	3	3
Chorus 20^1, 20^2, 20^3	1	1	1
English 25, 26, 27	3	3	3

Sophomore Year

Piano 55a, 56a, 57a, (two lessons a week)	3	3	3

Practice

Regular hours of practice are assigned each student by the Director of Music. The number of hours of daily practice depends on the classification of student. Mus.B. students are required to practice three hours daily in their freshman and sophomore years and four hours daily in their junior and senior years. Of other classifications of students, one hour daily practice is required.

Recitals

In order that students may become accustomed to appearing in public, frequent afternoon recitals are given. Public recitals are given by advanced students as often as it is consistent with their regular work.

All applicants for the Mus.B. degree are required to appear on afternoon programs, once in the freshman year, twice in the sophomore, and three times in both junior and senior years.

Opportunities are given students to hear the best music in concerts given by the members of the music faculty and visiting artists. Attendance at all recitals is obligatory.

Special Requirements

All non-resident students are required to practice in the Music Building under supervision.

All students, regular or special, are required to sing or play in any chorus, choir, quartet, orchestra or band, in which their presence may be desired.

No student in the Department of Music may appear as a representative of the College in a public musical performance, except by permission of the Head of the Department of Music.

N. B. — Not over six quarter hours in choral music, orchestra or band are allowed in the academic degree curricula.

CURRICULA LEADING TO BACHELOR OF ARTS DEGREE

Core Requirements:	Hours
English Composition and Literature	20
A Foreign Language	24
History—Social Science	20
Psychology	4
Health	4
Science	12

Each student must earn one hour of physical education credit during each quarter of his freshman and sophomore years, unless excused from the requirement by the Dean, the Head of the Department of Health, or the College Physician.

In English composition, natural science, foreign language, history, and social science students may be exempt from part of the core requirements on the basis of attainment in the field as demonstrated by test and by high school record. Such exemption is granted by the head of the department involved or by the Dean, upon application by the student. The granting of exemption does not involve bestowal of credit; neither does it reduce the total number of hours to be earned for a degree. Its only effect is to increase the number of elective credits which the student

may offer as a part of his program for a degree. For additional information concerning exemption, consult departmental requirements under Departments of Instruction.

Major and Minor Requirements:

Candidates for the Bachelor of Arts degree must earn thirty-six hours in a major field and twenty-eight hours in a related minor field; C average must be maintained in major and minor. Courses in major and minor fields must be selected with the approval of the student's major professor. Majors are permitted in English, a foreign language, a natural science, history, economics, sociology, music, health or mathematics.

Minors are selected with the approval of the major professor and the Dean.

A major divided among the various branches of social science will be recognized only upon recommendation of a committee consisting of the social science faculty and the Dean.

Music majors should minor in literature, fine arts, or foreign language.

Home Economics and home making programs, with music, literature, or sociology as a major and home economics as a minor are available. Electives in art, psychology, and sociology, music and literature are recommended. Psychology 116 and Art 77 may be submitted in partial fulfillment of minor requirements in home economics.

Minors must be selected with the approval of the head of the major department.

REQUIREMENTS FOR A MINOR IN MUSIC

Freshman Year

Applied Music	1	1	1
Sight Singing 37a, 38a, 39a	1	1	1
Ear Training 37b, 38b, 39b	2	2	2
Chorus 20^1, 20^2, 20^3	1	1	1

Sophomore Year

Applied Music	1	1	1
Theory 34, 35, 36	3	3	3
Chorus 50^1, 50^2, 50^3	1	1	1

Junior Year

Applied Music	1	1	1
Survey of Music Literature 43, 44, 45	3	3	3
Chorus 100[1], 100[2], 100[3]	1	1	1

Senior Year

Applied Music	1	1	1
History of Music 73, 74, 75	3	3	3
Chorus 150[1], 150[2], 150[3]	1	1	1

BACHELOR OF ARTS DEGREE WITH MUSIC AS A MAJOR

(A Non-Professional Degree)

Freshman Year

Applied Music	2	2	2
Theory 34, 35, 36 (Harmony)	3	3	3
Sight Singing 37a, 38a, 39a	1	1	1
Ear Training 37b, 38b, 39b	2	2	2
Chorus 20[1], 20[2], 20[3]	1	1	1
English 25, 26, 27	3	3	3
History 27, 28, 29	4	4	4
Elective	1	1	1

Sophomore Year

Applied Music	2	2	2
Theory 64, 65, 66 (Advanced Harmony)	3	3	3
Sight Singing 67a, 68a, 69a	1	1	1
Ear Training 67b, 68b, 69b	1	1	1
Chorus 50[1], 50[2], 50[3]	1	1	1
English 75, 76	4	4	
Psychology 65			4
Foreign Language (French or German)	4	4	4

Junior Year

Applied Music	2	2	2
Theory 114, 115, 116 (Form and Analysis)	2	2	2
Survey of Music Literature 43, 44, 45	2	2	2
Chorus 100[1], 100[2], 100[3]	1	1	1
Foreign Language (Second Year) (French or German)	4	4	4
Social Science	4	4	
Health			4

Senior Year

Applied Music	2	2	2
Music Elective (Theory)	2	2	2
History of Music 73, 74, 75	3	3	3
Chorus 150[1], 150[2] 150[3]	1	1	1
Science	4	4	4
Academic Elective	4	4	4

The candidate for graduation must have completed the requirements in his chosen field of applied music laid down for the end of the Sophomore Year of the course leading to a Mus.B. Degree with the various instruments or choice of a major, as prescribed by the National Association of Schools of Music.

DIVISION OF EXTENSION

And Correspondence Study

The Division of Extension offers correspondence and non-residence classroom courses. Non-resident classroom instruction will be offered in selected centers beginning about October 1. Inquiries should be addressed to the Director of Extension.

EXTENSION OFFERINGS

The offerings of the Division of Extension are of two general types as follows:

A. Extension work by class instruction in which the teacher meets the classes at some study center provided by the class.

B. Extension work by correspondence in which the student works out written assignments which are sent by mail to the instructor and graded by him and returned to the student.

The work of the Extension Department is organized to conform to the regulations of the Southern Association of Colleges and Secondary Schools and the regulations of the National Extension Association of Teachers Colleges.

EXTENSION CLASS STUDY

1. Mississippi Southern College is anxious to serve the teachers of Mississippi through the extension classes. Arrangements have been made to offer by extension any course included in the regular college schedule on condition

that satisfactory library and laboratory facilities are available. In the Departments of Health, English, Education, Psychology, History, and Social Science, it is possible to offer a number of courses without special library arrangements other than those available through the College. Those interested in arranging for extension classes in centers convenient for them should write the Director of Extension.

2. Any person qualified to profit by an extension course may be admitted to the classes for non-credit study. However, those who expect college credit for a course must meet regular admission requirements. Students will not be permitted to do extension work during regular attendance at any college.

3. Extension classes spend the same number of hours in recitation as are required for the same course taken in residence. No extension class may meet for more than sixteen hours in one week, or four hours in one day. No extension course may continue after the opening of the second term of the spring quarter.

CORRESPONDENCE STUDY

General Regulations

1. The matriculation fee for a correspondence course is $2.50 per quarter hour. Thus, the fee for a four-hour course is ten dollars and for a two-hour course five dollars.

2. **Fees are not returnable after lesson assignments have gone out of the correspondence office.**

3. If credit is desired, the student must meet the usual college entrance requirements and the course prerequisites. Only those courses numbered below one hundred are open to students of freshmen or sophomore rank.

4. No more than forty-eight hours earned in extension may be counted toward a degree from Mississippi Southern College. No more than twenty hours (of the forty-eight hours) earned by correspondence study may be counted toward a degree.

5. Students seeking enrollment for correspondence study courses are required to fill out an application blank for each course desired.

6. Text books are ordered by the student direct from the college bookstore, or from the publishers whose names and addresses are listed on the first assignment sheet.

7. The maximum time for the completion of a four-hour course (twenty-four lessons) is one year from the date of acceptance of the application. For reasons considered adequate by the Extension Division this time may be extended one year upon the payment of a fee of $3.00. Applications for extension of time should be accompanied by the fee for such extension. No such application can be considered unless received within sixty days of the date of expiration of the course.

8. No student will be permitted to rush through a correspondence course for any reason.

9. The minimum time for the completion of a course is four weeks from the date of beginning work, provided assignments are sent in two or three at a time at regular intervals proportionately spaced over the minimum time.

10. No work may be done by correspondence while a student is in attendance at any institution of learning, unless he has written permission of the dean of his college. It must be understood that if correspondence is allowed while in residence it becomes a part of the student's load for the quarter, and this work must be completed within that quarter. Examination on a course must be taken during the time of the regular examinations for the quarter.

11. A student should not enroll for more than one course at the time.

12. As the lessons are completed, the student mails or instructor. The lessons should be submitted, **in order, a few at a time.** These become the property of the Extension Division.

13. No credit will be allowed on a course which is completed in less than the minimum time of four weeks, exclusive of the time the student may be engaged in residence work at any institution.

14. Credit will not be allowed when there is evidence that unfair assistance has been obtained either on the lessons or the final examination.

15. The Correspondence Department is not responsible for lessons lost in the mail due to insufficient postage, or otherwise.

DEPARTMENT OF INSTRUCTION

DIVISION OF HEALTH AND PHYSICAL EDUCATION

Students may be assigned to physical education courses as seems advisable after physical examination.

All students must take Health 27, 79, or 125.

Men students who are candidates for a Bachelor of Science degree take Physical Education 48; they must also take Physical Education 33 or Health 133 and Physical Education 130 or 36, or 126, or 128.

Women students who are candidates for a Bachelor of Science degree classifying under the Lower Elementary curriculum take Physical Education 143; those classifying under the Upper Elementary curriculum take Physical Education 149; those classifying under High School curriculum take Physical Education 151.

Majors in health for the Bachelor of Arts degree complete 36 hours in health.

Biology majors take Health 129 or 136.

Home economics majors take Health 133, 134, and 129 or 136.

Minors in health take Health 79, 129, and sufficient electives in health to complete total for a minor.

Minors in physical education take Physical Education 143 or 149 and electives from courses listed below.

Majors in health and physical education under either of the elementary curricula take Health 79, 115, 125, 129, and twenty hours of physical education, including 48, and 181. Majors under the High School curriculum, Group X, take Health 79, 115, 125, 129, 133, 136, 166, 167, and courses in physical education as listed below:

Physical education courses required for men majors:

	Hours
33—Physical Education	2
48—Playground Management	2
181—Remedial and Corrective Measures	4
Football (either 26, 40, 102, 152)	1
Basketball (either 28, 42, 104, 154)	1

126—Coaching Football	1
128—Coaching Basketball	1
125—Life Saving	1
30—Field Sports	1
34—Tennis	1
32—Track	1
36—Natural Gymnastics	1
Elective	5

Physical Education for Women Majors:

37—Elementary Folk Dancing	1
41—Tennis	1
65—Field Sports	1
99—Archery	1
103—Recreational Games	1
105—Tap Dancing	1
125—Advanced Swimming	1
137—Self-Testing Activities or 89—Natural Gymnastics	1
33—History and Principles of Physical Education	2
181—Remedial and Corrective Measures	4
140—Community Recreation	2
Either 143, 149, 151	4
48—Playground Management	2

Students may repeat activity courses such as tennis, golf, and swimming, for additional credit, with the permission of the directors of the activity program. Additional quarters of credit in activity courses are indicated by affixing the letters "a", "b", etc., to the numbers of the courses.

HEALTH EDUCATION

Dr. Schwartz
Dr. Bethea—College Physician
Miss Smith—College Nurse

Health 27—**Community Hygiene.** Four hours.

Topics: common hygiene measures pertaining to the school and community.

Health 79—**The Hygiene of the School Child.** (Personal Hygiene). Four hours.

Topics: general study of the physical, mental and educational hygiene of the child.

Health 115—**Methods and Means of Teaching Health.** Four hours.
Topics: principles of health education with practical lessons.

Health 125—**Personal Hygiene, Advanced.** Four hours.
Topics: hygiene of the various systems of the body: sanitation of the home.

Health 129—**Physiology.** Four hours.
Topics: general physiology of the human body especially arranged for average college students.

Health 133—**First Aid.** Two hours.
Topics: first aid measures for the usual accidents about home, camp, etc.

Health 134—**Home Nursing.** Two hours.
Topics: those dealing with home life that everyone should know.

Health 136—**Anatomy.** Four hours.
Topics: construction of the human body, especially arranged for average college students.

Health 166—**Anatomy.** Four hours.
Continuation of Health 136.

Health 167—**Histology.** Four hours.
Microscopic anatomy for general students.

Health 175—**Problems of Sex Hygiene.** Two hours.
Topics: relative to sex hygiene and general education.

PHYSICAL EDUCATION

Mrs. McAlister

Combined Courses for Men and Women

33—**Theory and Principles of Physical Education.** Two hours.

This course gives a general background for Physical Education and should not be taken until the sophomore year. It may not be counted as an activity course.

48—**Playground Management.** Two hours.

63, 103—**Recreation.** One hour.
Minor sports and games, badminton, ping pong, deck tennis, and shuffleboard.

13, 73—**Social Dancing.** One hour.

181—**Remedial and Corrective Measures.** Senior standing. Four hours.
This is considered an academic course.

140—**Community Recreation.** Two hours.
Planning and directing activities for community socials.

PHYSICAL EDUCATION FOR MEN

12, 112—**Golf.** One hour each.

19, 119—**Handball.** One hour each.

20, 44, 106, 156—**Baseball.** One hour each.

24, 124—**Volley Ball.** One hour.

26, 42, 104, 154—**Basketball.** One hour each.
Each major should have at least one season before taking Course 128.

28, 40, 102, 152—**Football.** One hour each.
Each major should meet with the squad at least one season.

16, 116—**Softball.** One hour.

32, 132—**Track.** One hour.

34, 134—**Tennis.** One hour.

36—**Natural Gymnastics.** One hour.

30, 131—**Field Sports.** One hour.
Includes soccer field ball, and touch football.

38, 50, 138—**Boxing.** One hour.
Designed to equip the student with knowledge of the art of boxing and to qualify him to coach boxing.

46, 52, 102—**Spring Football Training.** One hour each.

126—**Coaching Football.** One hour.
Must have had either 28, 40, 102, or 152 before taking this course. Coaching of six-man football may be taken as 126-B.

128—**Coaching Basketball.** One hour.
Must have had either 26, 42, 104, or 154 before taking this course.

130—**Coaching Baseball.** One hour.

75—**Elementary Swimming.** One hour.

125—**Life Saving.** One hour.

NOTE:—Men must supply themselves with suitable clothing for physical education courses. Rubber soled shoes are required for use on the tennis courts and in the gymnasium. Sleeveless athletic shirts and trunks or white duck trousers are recommended.

PHYSICAL EDUCATION FOR WOMEN

NOTE:—The regulation uniforms are to be purchased after arriving; do not bring them from home or secure them before entering classes. Regular white tennis shoes may be worn. Majors consult physical director concerning uniform.

35, 123—**Formal Gymnastics.** One hour.

37, 117—**Folk Dancing.** One hour.
Folk dancing; dances of other countries.

13, 73—**Social Dancing.** One hour.

41, 118—**Tennis.** One hour.

75—**Elementary Swimming.** One hour.

89—**Natural Gymnastics.** One hour.

21, 101—**Softball.** One hour.

17, 105—**Clogging.** One hour.

99, 109—**Archery.** One hour.

61, 111—**Pageantry.** One hour.
For those who are in Festival.

19, 119—**Handball.** One hour.

125—**Life Saving.** One hour.
Advanced swimming.

57, 137—**Self-Testing Activities.** One hour.

59, 139—**Volley Ball, Cage Ball, Newcomb.** One hour each.

65, 145—**Field Sports.** One hour each.

31, 121—**Basketball.** One hour.

143—**Materials and Methods for Lower Elementary Grades.** Four hours. (Not an activity course).

149—**Methods and Materials for Upper Elementary Grades.** Four hours.

151—**Materials and Methods for High School in Physical Education.** Four hours.

Not an activities course. Prerequisite—Either 117, 105, or 111, and a knowledge of basketball, volley ball, field ball, archery, softball.

DIVISION OF LANGUAGE AND LITERATURE

The ordinary requirement in grammar and composition is a ten hour course consisting of English 25, 26, 27, and 28.

Freshmen possessing superior skill in the use of English may be excused from English 28. Transfer students presenting only nine hours in composition and grammar are expected to take English 28 unless excused from it by the Dean on the basis of an achievement test and a superior record on English taken in college. Superior students may be excused from English 25 on the basis of achievement tests.

Candidates for a Bachelor of Arts degree presenting high school units in a foreign language may be excused from four quarter hours of core requirement in that language for each high school unit presented.

Candidates for a Bachelor of Science degree in the Upper and Lower Elementary Curricula take English 117 in addition to the required freshman work and 8 hours of sophomore English. English majors take a sufficient number of additional hours in English to bring the total in English to thirty-six.

Candidates for the Bachelor of Science degree under the High School Curriculum take eight hours of sophomore literature in addition to the required freshman courses. English majors also take English 80, and 110, four hours of speech (English 115, 116, 120), and enough additional hours in English to bring their total credits in the department to forty-four. Students are allowed to offer eight hours earned in Language 111, 142, 143, 144 as a part of the required forty-four hours in English. Language majors take thirty-six hours in French, or Spanish, based on no entrance units or twenty-eight hours in French, or Spanish, based on two entrance units. Students must also take a methods course in one major field.

Candidates for the Bachelor of Arts degree take nine hours in freshman composition and select three courses from English 75, 76, 77, 80, and Language 143. English majors for the Bachelor of Arts degree must earn sixteen hours in English in courses numbered above one hundred.

ENGLISH

Dr. Lowrey **Dr. Shands** **Miss Hickman**

25—English Composition, Written and Spoken. Three hours.

A course dealing with the organization of thought for written and oral composition. Practice in letter writing and in short expository themes. Collateral reading. Mechanical accuracy is expected in spelling, sentence structure, and punctuation.

26—English Composition, Written and Spoken. Three hours.

A course emphasizing word study, vocabulary building, class discussions. The major part of the course concerns the development of skill in gathering and organizing material for expository themes longer than those required in 25. Collateral reading.

27—English Composition, Written and Spoken. Three hours.

A continuation of the work of 26 with special attention to the needs of superior students. Students are encouraged toward grace and clarity of expression and are given guidance in those types of critical and creative writing in which they are most interested.

28—Mechanics of English. One hour.

A course in good usage dealing with grammar, punctuation, spelling, oral usage, and the mastery of tools intended to improve usage. Any student found deficient in English usage may be assigned to English 28 and required to continue in the course until his deficiency is removed.

75—Introduction to English Prose. Four hours.

A course requiring a great deal of reading in the fields of essay, travel, history, biography, and fiction.

76—Introduction to English Poetry. Four hours.

A study of the work of the better English poets with the aim of developing skill in reading and understanding poetry.

77—Introduction to English Drama. Four hours.

A critical study of plays from the Elizabethan period, the seventeenth, eighteenth, and nineteenth centuries, and the contemporary period.

80—The Development of American Literature. Four hours.

A reading course in the development of American literature.

110—Great American Writers. Four quarter hours.

An intensive study of the more important works of American writers.

115—Public Speaking. Four quarter hours.

116 a, b, c—Debating. Two hours per quarter.

117—Materials of Children's Literature. Four hours.
A course offering an opportunity to read extensively in the greater literature of mythology, legend, history, biography, fiction and poetry as it relates to children's reading and the children's library.

120—Play Production. Four hours.
A course for teachers who coach plays in high schools and for teachers who wish to learn to organize and present plays as a part of their teaching of literature.

123—Shakespearean Comedy. Four hours.
An introductory course stressing the development of Shakespeare as a poet and dramatist as exemplified in the earlier plays and the later romantic comedies.

124—Shakespearean Tragedy. Four hours.
A consideration of Shakespeare's mind and art as expressed through the great tragedies.

125—The Romantic Poets. Four hours.
An intense study of the chief works of the greater poets from 1789 to 1832.

126—The Victorian Poets. Four hours.
An intensive study of the major Victorian poets.

127—The English Novel. Four hours.
Reading in the development of the English novel from Henry Fielding to the present time.

138 a—Advanced Composition. Two hours.
A course especially adapted for those wishing to do creative writing.

141—The Teaching of Junior and Senior High School English. Four hours.
An attempt to analyze the various problems that arise in the teaching of English in the high school.

LIBRARY SCIENCE

Miss Roberts

29—How to Use the Library. One hour.
This course is planned to give the students a working knowledge of some of the resources of the library through the study of the printed book, the decimal classifications, the card catalogue and the most important reference work. **Required of all students entering in their freshman year.**

116—School Library Administration. Four hours.
Methods of organization and administration of a small library, including simple loan systems, order work, mechanical preparation of books, binding, etc.

117—Children's Literature. Four hours.
See Department of English.

120—Function and Use of the Library. Two hours.

125—Adolescent Literature. Two hours.

A study of the reading interests of the adolescent with criteria for selecting books for the high school age.

127—Reference and Bibliography. Four hours.

A study of the content and use in the school library of such reference tools as dictionaries, encyclopedias, year-books, periodicals, indexes and special reference books.

132—Cataloging. Two hours.

Instruction and practice in making and arranging cards for a dictionary catalog, in the use and ordering of Library of Congress cards, and in subject headings for a school library catalog. 135 required with this course.

135—Classification. Two hours.

Principles of classification with actual practice in classifying books with the Dewey decimal system. Must be taken with 132.

Courses in Library Science to meet requirements of school libraries are offered in the summer schedule.

FOREIGN LANGUAGE

Dr. Shands **Miss Billingsley**

NON-TRANSLATION COURSES

111—History and Science of Language. Four hours.

The aim of this course is to acquaint students with the groupings of world languages and with the most clearly worked out scheme of inter-relations between the Indo-European languages. The nature of language as a changing body of usage, the facts and conditions that determine the directions and rates of change, and the contributions of other languages to the development of our contemporary English are emphasized.

142-(143)-(144)—World Literature. Four hours each quarter.

The aim of this course is, through reading and discussion of literary masterpieces in translation, to give the students an idea of the development of world thought from ancient times and of its influence on contemporary life. The work of the first quarter is mainly in Greek, Roman and medieval literature; that of the second quarter in literature from the Renaissance to the French Revolution; and that of the third quarter deals with the principal trends of the literature of Europe since the French Revolution.

121—The Teaching of Foreign Languages. Four hours.

The aim of this course is to acquaint students who intend to teach foreign languages with the results of recent investigations along this line. Objectives, contents of courses, methods of instruction, tests, etc., will be studied and evaluated. This course will be correlated with actual teaching practice in the Demonstration School.

GERMAN

35-(36)-(37)—First Year German. Four hours each quarter.

The aim of this course is to acquaint the students with the rudiments of the German language, with the emphasis primarily on fitting them to read it understandingly.

85-(86)-(87)—Second Year German. Four hours each quarter.

The aim of this course is to continue the work of the first year, with a gradually increasing emphasis on the active phases of conversation and composition. About five hundred pages of nineteenth century prose will be read.

FRENCH

25-(26)-(27)—First Year French. Four hours each quarter.

The aim of this course is to acquaint the students with the rudiments of the French language, with the emphasis primarily on fitting them to read it understandingly. The teacher will strive incidentally to inspire a love of French culture and civilization.

75-(76)-(77)—Second Year French. Four hours each quarter.

The aim of this course is to continue the work of the first year with a gradually increasing emphasis on the active phases of conversation and composition. About five hundred pages of nineteenth century prose will be read.

145-(146)-(147) — Third Year French. Four hours each quarter.

The aim of this course is to fit students who have taken first and second years of French to teach it in the high schools of the state. The work will be divided into three parts: (a) review of grammar and composition; (b) survey of the field of French literature; (c) reading of the most outstanding masterpieces of the several periods of French literature.

164-(165) — Fourth Year French. Four hours each quarter.

An intensive course in reading and reports dealing with the Classic Period of French Literature.

166—Scientific Study of French Pronunciation. Four hours.

The phonetics of the French language. A course for teachers.

SPANISH

31-(32)-(33)—First Year Spanish. Four hours each quarter.

The aim of this course is to acquaint the students with the rudiments of the Spanish language, with the emphasis primarily on fitting them to read it understandingly. The teacher will strive incidentally to stimulate an interest in the general aspects of Spanish culture and civilization.

81-(82)-(83)—**Second Year Spanish.** Four hours each quarter.

The aim of this course is to continue the work of the first year with a gradually increasing emphasis on the active phases of conversation and composition. About five hundred pages of modern prose will be read.

148-(149)-(150) — **Third Year Spanish.** Four hours each quarter.

The work of this course will be divided into three parts: (a) review of grammar and composition; (b) survey of the field of Spanish literature; (c) reading of the most outstanding masterpieces of the several periods of Spanish literature. The aim of the course will be to fit students who have taken the first and second years of Spanish to teach in the high schools of the state.

DIVISION OF FINE AND PRACTICAL ARTS

MUSIC

The Mississippi Southern College is an institutional member of the National Association of Schools of Music.

Mr. Marsh **Mrs. Baylis**
Miss DeLano **Miss George** **Mr. Keller**
Miss Leek **Miss MacDonald**

The Department of Music was organized for a four-fold purpose:

(1) To combine musical and literary studies as a broad basis for regular college work; (2) to use the art of music as a means of intellectual, aesthetic, and moral culture; (3) to furnish instruction to special and general students; (4) to train teachers and supervisors of music.

Curricula:

1. Curriculum in Piano.

2. Curriculum in Violin or Violoncello. Students scheduling this curriculum are required to take two years of work in piano.

3. Curriculum in Voice, which includes particular emphasis in foreign languages. Students scheduling this curriculum are required to take two years in piano.

4. Curriculum in Musical Composition.

5. Curriculum in Music Education (School Music), which prepares students to teach in the elementary and high schools.

Students desiring to major in music should register for the Bachelor of Music degree with piano, voice, violin, or violoncello as a major or for the Bachelor of Science degree with music education as a major, or for the Bachelor of Arts degree with music as a major. However, any student of the College who is not registered for a music degree may pursue such courses in the Department of Music as he wishes by paying the required fee.

Music majors who have taken music courses under private instruction or in such way as not to receive credit may be excused from required courses in the music curriculum on the basis of tests of proficiency.

APPLIED MUSIC

25-26-27 (a) (b) (c)—Freshman Piano (1, 2 or 3 hrs. each qr.); 55-56-57 (a) (b) (c)—Sophomore Piano (1, 2 or 3 hrs. each qr.); 105-106-107 (a) (b) (c)—Junior Piano (1, 2 or 4 hrs. each qr.); 155-156-157 (a) (b) (c)—Senior Piano (1, 2, or 4 hrs. each qr.)

31-32-33 (a) (b) (c)—Freshman Violin (1, 2 or 3 hrs. each qr.); 61-62-63 (a) (b) (c)—Sophomore Violin (1, 2 or 3 hrs. each qr.); 111-112-113 (a) (b) (c) — Junior Violin (1, 2 or 4 hrs. each qr.); 161-162-163 (a) (b) (c) —Senior Violin (1, 2 or 4 hrs. each qr.)

22-23-24 (a) (b) (c)—Freshman Violoncello (1, 2 or 3 hrs. each qr.); 52-53-54 (a) (b) (c)—Sophomore Violoncello (1, 2 or 3 hrs. each qr.); 102-103-104 (a) (b) (c)—Junior Violoncello (1, 2 or 4 hrs. each qr.); 152-153-154 (a) (b) (c)—Senior Violoncello (1, 2 or 4 hrs. each qr.)

28-29-30 (a) (b) (c)—Freshman Voice (1 or 2 hrs. each qr.); 58-59-60 (a) (b) (c)—Sophomore Voice (1 or 2 hrs. each qr.); 108-109-110 (a) (b) (c)—Junior Voice (1, 2 or 4 hrs. each qr.); 158-159-160 (a) (b) (c) — Senior Voice (1, 2 or 4 hrs. each qr.)

Theoretical and Historical

34-35-36—**Harmony.** Three hours each quarter.

Elementary harmony beginning with scales, intervals, triads and their inversions; cadences; the dominant seventh chords and their inversions; secondary chords and inversions; dominant ninth and its inversions; diminished sevenths and their inversions; modulation, etc. Approximately one-third of the time is given to keyboard harmony.

Text: Harmony—Chadwick.

64-65-66—**Advanced Harmony.** Three hours each quarter.

Review of Harmony 34, 35, 36. Secondary seventh chords and their inversions; mixed chords and their inversions; altered chords; non-harmonic tones, etc. Approximately one-third of the time is given to keyboard harmony.

Prerequisite: 34-35-36.

Text: Harmony—Chadwick.

114-115-116—**Form and Analysis.** Two hours each quarter.

Harmonic and formal analysis of the forms of polyphonic and harmonic structures and innovations in the works of composers of the modern school are also analyzed.

Text: Harmonic Analysis—Cutter. Theory—Elson.

Prerequisite: 64, 65, 66.

117-118-119—**Elementary Counterpoint.** Two hours each quarter.

Counterpoint in two, three, four and five parts. Harmonization and supplying additional voices to chorals and other melodies used as Canti Fermi.

Prerequisite: 64-65-66.

164-165-166—**Composition.** Two hours each quarter.

Composition in the smaller forms up to and including the sonatina form. Students in this course are expected to present at student recitals such of their compositions as the teacher may select.

Prerequisite: 114-115-116.

167-168-169—**Orchestration.** Two hours each quarter.

A study of the individual characteristics of the various instruments comprising the modern orchestra, and of the orchestra as a whole. The arrangement for the orchestra of original and standard compositions.

Prerequisite: 117-118-119.

197-198-199—**Advanced Counterpoint.** Two hours each quarter.

Applied counterpoint; imitation; canon; invention; invertible counterpoint; Fugue.

Prerequisite: Music 117-118-119.

200-201-202—**Advanced Composition.** Two hours each quarter.

The Sonata-Allegro form; Art songs; part songs and anthems.

Prerequisite: Music 164-165-166.

203-204-205—**Advanced Orchestration.** Two hours each quarter.

Prerequisite: Music 167-168-169.

37a-38a-39a—**Sight Singing.** One hour each quarter.

37b-38b-39b—**Ear Training.** Two hours each quarter.

Drill in scales and intervals. Rhythmic problems. Dictation of simple melodies and chords.

67a-68a-69a—**Advanced Sight Singing.** One hour each quarter.

67b-68b-69b—**Advanced Ear Training.** One hour each quarter.

Complicated rhythms, chromatic scales, reading in different clefs. Dictation of exercises in rhythm and intonation.

Prerequisite: Sight Singing 37a, 38a, 39a; Ear Training, 37b, 38b, 39b.

HISTORY OF MUSIC

43-44-45—**Survey of Music Literature.** Three hours. each quarter.

A cultural course in the appreciation of music. The object of the course is the attainment of appreciative listening and individual understanding of a composer's musical message.

73-74-75—History of Music. Three hours each quarter.

Music of primitive nations. The musical instruments of the Bible. Music of the early Christian Church. Rise and development of liturgy. Notation. Music and the Renaissance. The Polyphonic Age. The rise of opera and oratorio. The periods of Bach and Handel, Haydn and Mozart. The advent of Beethoven. The rise of virtuosity and romanticism. Wagner and the new operatic tendencies. American musical development.

Prerequisite: Music 43, 44, 45.

206-207-208—Advanced History of Music. Three hours each quarter.

A seminar course. The various fields of music are covered in detail by means of individual reports and papers from members of the class.

Prerequisite: Music 73-74-75.

Ensemble

123-124-125—Ensemble. Two hours each quarter.

A study of the classics arranged for two, four, six and eight hands. Original two piano compositions by Schumann, Grieg, Saint-Saens, and Debussy. Transposition.

173-174-175—Advanced Ensemble. Two hours each quarter.

A study of Trios by Schubert, Beethoven, etc., and Sonatas for Violin and Piano by Bach, Grieg, Brahms, and Caesar Franck. Accompanying.

Prerequisite: Music 123, 124, 125.

Music Education (School Music)

70-71-72—School Music Methods. Two hours each quarter.

Musical interest of young children. Nature of the child voice. Method of developing the child voice. Definite ear-training, growing out of experience in rhythmic play and rote singing. First experience with the score, with projects in creation and performance. Beginning part singing. The foundation of musical appreciation (a survey of literature which meets the emotional needs of pupils of each grade will be made). Music textbooks. Tests and Measurements. Appreciation.

Prerequisite: Music 34-35-36 and Music 37a,b, 38a,b, 39a,b.

95—School Music Fundamentals. Four hours.

This course requires no prerequisite and is open to students of any class. Especially valuable to the grade teacher. It deals with the fundamentals of music as major and minor scales, chromatics scales, time values, etc. Rote singing and appreciation of music through use of the victrola form an interesting part of this course.

96—Advanced School Music Fundamentals. Four hours.

This course carries on the fundamentals of music as intervals, etc. Part singing is introduced, common use of songs and song presentation.

Prerequisite: Music 95.

120-121-122—School Music Methods. Two hours each quarter.

A study of program building and curriculum building. A discussion of problems of the changing voice. Choral material suitable for junior high school boys and girls; for senior high school boys' and girls' glee clubs; for a capella choirs. The technique of conducting. The presentation from a listener's standpoint of a graded course in music literature.

Prerequisite: Music 70-71-72.

126-127-128—Conducting. Two hours each quarter.

The fundamentals of chorus and orchestral conducting are studied, accompanied by much individual practice in conducting material appropriate for the junior and senior high schools.

170—Instrumental Class (Strings). Two hours.

A class in stringed instruments. Practical instruction in the methods of playing the various stringed instruments. Holding the instrument, the bow, the hand, position, etc. For supervisors only. Students must play the various instruments. This is not a theoretical course.

171-172—Instrumental Class (Winds). Two hours each quarter. Winter; Spring.

A class in wind instruments. Practical instruction in the method of producing tones on the various wind instruments; methods for beginning the various scales. For supervisors only. Students must play the instruments. This is not a theoretical course.

176—Diction Class. Two hours. Fall.

The correct use and pronunciation of English, Italian, French and German as applied to the vocal art.

Prerequisite: Junior Voice.

177—Vocal Analysis. Two hours. Winter.

Through analysis does the pupil arrive at true artistry. An understanding of the foundations of voice culture, namely: correct breathing, steady controlled tones, vowel forms, consonants, and poise are the stepping stones to an artistic performance that includes musicianship, agility, phrasing and expression. Analysis and treatment of vocal defects is based on a scientific anatomical knowledge.

178—Vocal Repertory. Two hours. Spring.

The Vocal Repertory is based upon the idea of what repertory really means—a knowledge of the musical literature of different periods of song composition. The periods to be covered are the classic, romantic and modern. The work of the classes will also embrace the development of the art song from the folk song and those of the Renaissance period together with the style which these several cycles demand of the singer, and its adjustments to the individual gifts and personality of each.

179-180-181—Normal Voice Methods. Two hours each quarter.

This course is for the training of teachers, and includes the following: management and organization of classes, correct placement of the voice, voice classification; new methods of teaching technique; selection of materials for teaching.

182-183-184—**Normal Piano Methods.** Two hours each quarter.

The first quarter of the course is devoted to the study of methods of teaching in the lower and upper elementary schools. This includes methods of presentation, drill and performance and materials of all kinds for such work. The work in the Demonstration School is conducted by the Supervisor in the department and provides opportunity for observation and practice teaching.

185-186-187—**Normal Violin Methods.** Two hours each quarter.

188-189-190—**Lyric Action (Acting in Opera.)** Two hours each quarter.

Gesture, individual and ensemble; pantomine; operatic roles; stage business and technique; costumes.

191—**String Instruments Class Methods.** Two hours. Fall.

A class in the playing of violin, viola, 'cello and bass as an introduction to the teaching of these instruments and as demonstration of class teaching.

192—**Woodwind Instruments Class Methods.** Two hours. Winter.

A class in Woodwind instruments is conducted as an introduction to the teaching of Woodwind instruments and as demonstration of class teaching of these instruments. The instruments taught include clarinet, oboe, flute and bassoon.

193—**Brass Instruments Class Methods.** Two hours. Spring.

A class in brass instruments is conducted as an introduction to the teaching of brass instruments and as demonstration of class teaching of these instruments. The instruments taught include: trumpet, melophone, French horn, trombone, baritone and tuba.

194-195-196—**Advanced Conducting and Study of Band and Orchestral Materials.** Two hours each quarter.

Score reading and conducting. Orchestral and band technique, interpretation, repertoire, rehearsal and performances. Building and training the student orchestra and band.

Practical Music

20^1, 20^2, 20^3—**Choral Music.** One hour each quarter.

No credit will be given unless student is a member of the chorus three consecutive quarters.

50^1, 50^2, 50^3—**Choral Music.** One hour each quarter.

Prerequisite: Music 20^1, 20^2, 20^3.

100^1, 100^2, 100^3—**Choral Music.** One hour each quarter.

Prerequisite: Music 50^1, 50^2, 50^3.

150^1, 150^2, 150^3—**Choral Music.** One hour each quarter.

Prerequisite: Music 100^1, 100^2, 100^3.

21^1, 21^2, 21^3—**Orchestral Music.** One hour each quarter.
No credit will be given unless a student is a member of the orchestra three consecutive quarters.

51^1, 51^2, 51^3—**Orchestral Music.** One hour each quarter.
Prerequisite: Music 21^1, 21^2, 21^3.

101^1, 101^2, 101^3—**Orchestral Music.** One hour each quarter.
Prerequisite: Music 51^1, 51^2, 51^3.

151^1, 151^2 151^3—**Orchestral Music.** One hour each quarter.
Prerequisite: Music 101^1, 101^2, 101^3.

22^1, 22^2, 22^3—**Band Music.** One hour each quarter.
No credit will be given unless a student is a member of the band three consecutive quarters.

52^1, 52^2, 52^3—**Band Music.** One hour each quarter.
Prerequisite: Music 22^1, 22^2, 22^3.

102^1, 102^2, 102^3—**Band Music.** One hour each quarter.
Prerequisite: Music 52^1, 52^2, 52^3.

152^1, 152^2 152^3—**Band Music.** One hour each quarter.
Prerequisite: Music 102^1, 102^2, 102^3.

ART

Miss D'Olive

Art 25, 26, 75, 77, 89, 125, and 140 are especially recommended for students of fine arts. Art majors take 28 hours in art and eight hours in Home Economics 104-105.

25—**Introductory Drawing and Painting.** Four hours.
A course in the fundamental principles of drawing and design. Lettering; principles of perspective; light and shade; still life; figure and animal drawing; color theory; landscape; principles of design; consideration given method of teaching same. This course is prerequisite to all other courses in Art except 77 and 140, which may be elected without prerequisite.

26 (a, b)—**Art Problems for Elementary Grades.** Four hours.
Problems for the elementary teachers—clay modeling, masks, marionettes, their construction, manipulation, history, decoration papers, booklet making, decoration of useful objects, picture making.

75 (a, b)—**Drawing and Painting.** Four or eight hours.
Prerequisite: Art 25. This course is designed to give more advanced work in still life, figure and landscape composition. Outdoor sketching. Charcoal, oil, water color.

77—Design. Four hours.

Problems in design in black and white and color, such as textile patterns, pottery, wall hangings, etc. Charcoal, tempera, colored chalk, block print, leather. Required of all Home Economics majors.

89—Poster Making and Blackboard Drawing. Four hours.

Prerequisite: Art 25. A study of lettering and design as applied to poster art. Practice in rapid drawing on the blackboard of landscapes, figures in action, animals, etc. Emphasis on correlation with other school subjects.

125—The Teaching of Art. Four hours.

Prerequisite: Art 25 and 89. This course includes a study of aims, needs and values of art education; standards of attainments; and discussion of courses of study. Group problems are worked out and demonstrated lessons given.

140—Art Appreciation. Four hours.

No prerequisite. An appreciative survey of art with emphasis on the underlying principles of design. Sculpture; architecture; painting; graphic arts; textiles and pottery. Problems in these to help the student gain the point of view of the creative artist.

26—Textile and Clothing. Four hours.

Two one-hour recitations and two two-hour laboratory periods a week.

Planning, constructing, and caring for the clothing needs of the young girl. Cotton and linen fabrics.

37—Food Study. Four hours.

Planning, selecting, preparing, and serving meals for the family group under typical home conditions. Scientific principles of cookery.

50—Textiles and Clothing. Four hours.

Prerequisite: Home Economics 26 or its equivalent.

Two one-hour periods and two two-hour periods per week.

A study of the characteristics, uses, and costs of standard materials; simple tests for identifying fibers. Silk and woolen garments are constructed by the use and alteration of the commercial patterns adapted to the individual girls. Remodeling of garments is emphasized.

85—Advanced Foods. Four hours.

Prerequisite: Home Economics 37.

A continuation of food study 37 with emphasis on marketing and application and correlation of scientific principles involved. Subject matter and materials are evaluated for use in high school teaching.

104—Art Related to the Home and Dress. Four hours.

Three one-hour periods and one two-hour period per week.

Prerequisite: Fine Art 77.

An application of the art principles to everyday problems which are found in home life, and a study of the principles of design as applied to dress. Studies and selection of suitable costume and accessories to individual types are made.

105—(Formerly 38)—Housing and House Furnishing. Four hours.

Three one-hour recitations and one two-hour laboratory period a week.

Prerequisite: 104.

This course aims to emphasize housing and its relation to individual and group living, house planning, house furnishings and arrangement. It also gives some understanding of how housing needs can be adjusted to the income level.

115—Household Appliances. Four hours.

Two one-hour recitations and two two-hour laboratory periods a week.

A study of the selection, operation, care, and arrangement of appliances in the home.

123—Elementary Course in Nutrition. Two hours.

This course is planned for students other than home economics majors, to instruct them in the nutritional needs of the body and the selection of food to meet these needs. Such laboratory work as the instructor deems necessary will be included.

125—Advanced Clothing and Consumer Problems. Four hours.

Prerequisite: Home Economics 104. Home Economics 26 or 50.

Two one-hour periods and two two-hour periods per week. Selected topics dealing with development in the clothing field. Reports include problems of the household buyer resulting from the introduction of new textile fibers and fabrics. New manufacturing processes and their relation to proposed standards of legislation for consumer protection. Advanced work involving designing, construction, fitting, tailoring, and the procedures essential to independent work are included.

128—The Family. Two hours.

A scientific study of the social life of the family with emphasis upon mental hygiene.

135—(Formerly 170)—Nutrition and Dietetics. Four hours.

Prerequisite: H. E. 85.

Two one-hour recitations and two two-hour laboratory periods a week.

Topics studied are: the body's need of food, chemistry of digestion and care of the digestive system, protein, energy, mineral and vitamin requirements of the body during childhood, adolescence, adult life and old age and the simplest ways of meeting these requirements. Nutritional experiments with laboratory animals.

138—Child Development. Four hours.

Open to juniors and seniors.

Three one-hour recitations and five hours of observation and participation in the nursery school a week.

A study of the development and behavior of pre-school children; the problems involved in training the child for efficient adulthood.

150—Family Clothing and Textiles. Four hours.

Two one-hour periods and two two-hour periods per week.

Prerequisite: Home Economics 104. Home Economics 26 or 50.

Selection of household textiles and clothing materials for members of the family with regard to the economic and artistic factor: designing and construction of children's clothing according to their needs. Study of social and economic problems of the consumer and producer of textiles.

180—Methods of Teaching Home Economics in Vocational Schools. Four hours.

Prerequisite: Junior standing in home economics.

A study of the homemaking problems of the high school girl; objectives of the course are set up; best methods of teaching and the abilities girls should develop are decided on.

196—Household Economics. Four hours.

Prerequisite: Senior standing.

Problems of home making relating to the wise use of time, energy, money and resources of the home. A study of the productive phases of home making as home gardening, poultry-raising and improvements is included.

197—Practical Home Management. Four hours.

Prerequisite: Home Economics 135 and 196.

The aim of this course is to apply the principles of home-making through actual participation in responsibilities and activities of the home. A desired outcome of this group life is that the student may have acquired habits of efficient home-making and ability to maintain worthy family relationships.

200—Methods of Teaching Adult Home Making Classes. Four hours.

Prerequisite: Home Economics 180.

This course is designed to explain the place of Home Economics in the adult program as outlined by the vocational plan in Mississippi. Special emphasis will be placed on the organization of adult classes and planning units of work. There will be observation and assistance with adult classes.

220—Child Development. Four hours.

Two one-hour lecture and discussion groups per week plus six hours of participation in the Nursery School.

Prerequisite: Home Economics 138.

A course designed to give students deeper understanding of the psychology of childhood; opportunities for full responsibility in a full day nursery school situation.

DIVISION OF SCIENCE AND MATHEMATICS

Science 22, 23 and 24 are usually required of students. Upon application to the Head of the Department of Science, students presenting a high school unit in biology may be excused from Science 22; those presenting a high school unit in physics may be excused from 23; those presenting a unit in chemistry may be excused from 24. Majors exempted from all or part of the survey course do not, by accepting such exemption, decrease the total number of hours to be earned in the field.

Any college year in an introductory science satisfies core requirements for the Bachelor of Arts degree or for the Bachelor of Science degree under the high school curriculum.

No laboratory fees are charged for science courses at Mississippi Southern College.

In order to help meet the military and non-military needs of our country for young people with mathematics training during the emergency caused by the war, and to follow the recommendations of conferences of military leaders and college administrators, the Mathematics program has been accelerated and slightly changed.

Under the new plan one may take in two years the courses in Mathematics that were usually taken in three years. The courses in Algebra, Trigonometry, Analytic Geometry, and Calculus have been changed to five hour courses and are indicated by placing the letter W after the course number.

Three quarter hours in Aerial Navigation can be obtained during the year by taking one hour a quarter.

Quarter hour requirements for Mathematics Majors remain the same and all such Majors should consult their Major Professor for guidance in preparing a schedule.

During this year the schedule in Mathematics should be as follows:

First year: Mathematics 31w, 35w, and 75w.

Second year: Mathematics 75w, 175w, and 176w.

Third year: Mathematics 178, 175w, and 176w.

Spherical Trigonometry and Mathematics of Finance are highly practical electives.

Mathematics majors should take Science 80, 81, 82.

The requirements for major groups to the Bachelor of Science degree are as follows:

For Major Group IV: Mathematics, 40 Quarter hours in mathematics. Natural Science 22, 23, 24; Chemistry 25, 26; Biology 37, 38; Physics 80, 81; Chemistry 27 or Biology 39; twelve additional elective hours in chemistry or biology; Science 145.

For Major Group V: Mathematics same as Group IV. Physics 80, 81, 82, Chemistry 25, 26, 27, 130, 131, 132, and Science 145.

Science 75, 76, 77 may be substituted for 130, 131, 132 with the consent of the head of the department.

For Major Group VI: Mathematics same as Group IV. Biology 37, 38, 39, 142, 143, 144; Health 129; elective twelve hours from Science 122, 123, 124, 140; Health 136, 167; Science 145.

For Major Group VII: Natural Science 22, 23, 24; Physics 80, 81, 82; Chemistry 25, 26, 27, 75, 76, 77 or 130, 131, 132; Biology 37, 38, 39, 142, 143, 144 or 122, 123, 124; Science 145; Mathematics 32 (College Algebra). Elective in Chemistry or biology twelve hours. Students offering less than two units of algebra for entrance must also take Mathematics 31.

For Major Group IX: Minimum in either natural science or mathematics as indicated in any group above. Thirty-six hours in chemistry may be offered as a major in this group.

Students who choose mathematics as a major or minor and who have had plane trigonometry in high school and who have fifteen entrance units without counting this course, are advised not to take entrance credit for it, but to take Mathematics 35 in the same manner as those who have not had plane trigonometry.

Thirty-six hours in mathematics, chemistry, or biology constitute a major for the Bachelor of Arts degree.

MATHEMATICS

Mr. Johnson

21—**Arithmetic for Teachers.** Four hours.

31w—**College Algebra.** Five hours.
A first course in college algebra.

32—**College Algebra.** Four hours.
A second course in college algebra and continuation of 31.

35w—**Plane Trigonometry.** Five hours.

36—**Spherical Trigonometry.** Four hours.
Prerequisite: Mathematics 35.

60—**Mathematics of Finance.** Four hours.
Prerequisite: A knowledge of geometric progressions and logarithms. This course treats of the mathematical principles of such things as building and loan associations, sinking funds, bonds, investments, life insurance, installment buying, and the amortization of debts.

75w—(Formerly 127)—**Analytic Geometry.** Five hours.
Prerequisite: Mathematics 35.

76—(Formerly 128)—**Analytic Geometry.** Four hours.
Prerequisite: Mathematics 75. This is a continuation of 75.

100 a, b, c, d—**Aerial Navigation.** One hour each.

138—**The History of Mathematics.** Four hours.

131—**The Teaching of High School Mathematics.** Four hours.
This course should be taken after the student has finished as much as is possible of his training in mathematics. This course is designed to give the student some knowledge of the foundation on which mathematics is built, the aims and purposes of teaching it in the high school, curriculum problems, the organization and presentation of subject matter, methods of teaching, and methods of testing.

175w—**Differential Calculus.** Five hours.
Prerequisite: Mathematics 75.

176w—**Integral Calculus.** Five hours.
Prerequisite: Mathematics 175. This is a continuation of 175.

178—**College Geometry.** Four hours.
Geometry of the triangle and the circle.

180—**Theory of Equations.** Four hours. Offered odd years.

GENERAL SCIENCE

Mr. Austin **Mr. Owings** **Dr. Steele**

22—**Survey of Biological Sciences.** Four hours.
An introductory survey of the biological science. The scientific method and its application to the basic principles of the different phases of biology. The history of the growth of biological knowledge.

23—Survey of Physical Sciences. Four hours.
Similar to course 22 above except that the physical field is covered.

24—Survey of Chemical Sciences. Four hours.
Similar to courses 22 and 23 above except that the chemical field is covered.

100 a, b, c—Elementary Aeronautics. Three hours per quarter.
Theory of flight, meteorology, gas engines, aerial navigation.

BIOLOGY

37—General Biology. Four hours.
Two theory periods and two double periods for laboratory work each week.

An introductory course in biology with vital phenomena of animals.

38—General Biology. Four hours.
Two theory periods and two double periods for laboratory each week. A continuation of Science 37.

39—General Biology. Four hours.
Two theory periods and two double periods for laboratory each week. Plant life.

122—Botany. Four hours.
One theory period and three double periods for laboratory each week. The Thallophytes and Bryophytes.

Type individuals closely studied in the laboratory.
Prerequisite: Science 39.

123—Botany. Four hours.
One theory period and three double periods for laboratory each week.

A continuation of Botany 122. A rather close study will be made of the Pteridophytes and Gymnosperms.
Prerequisite: 122.

124—Botany. Four hours.
One theory period and three double periods for laboratory each week.

A continuation of Botany 123. The morphology of the Angiosperms. Identification of wild flowers.
Requirements same as for 123.

140—Heredity. Four hours.
Four recitation periods per week. Given when demand justifies a class.

The fundamental principles of heredity, such as Mendel's Law, hybrids, sex determination, sex-linked characters, chromosomes, genes, and other factors met with in problems of heredity.
Prerequisite: Science 37 and 38. A knowledge of Science 39 will be useful in this course.

142—**Zoology.** Four hours.
Two theory periods and two double periods for laboratory each week.

The free living and parasitic protozoa. The student is required to prepare permanent mounts of protozoa for microscopical study. A survey of the lower phyla of animals through the Mollusca.

Prerequisite: Science 37, 38, and preferably 39.

143—**Zoology.** Four hours.
Two theory periods and two double periods for laboratory each week.

A continuation of Science 142. The Arthropods and lower Chordates.

Prerequisite: Science 142.

144—**Zoology.** Four hours.
Two theory periods and two double periods for laboratory each week.

The higher vertebrates. The laboratory work will be chiefly devoted to a study of the dogfish and the cat.

Prerequisite: Science 37 and 38.

147 (Formerly 36) — **Elementary Science — Nature Study.** Four hours.
Two theory periods and two double periods for laboratory work each week.

Plant and animal life; intended to acquaint the prospective teacher with knowledge of those things that are a part of the environment of every child—such as trees, flowering plants, seed, spore bearers, insects, and animals—and to give general directions as to material and methods to be used. Especially planned to meet the needs of elementary teachers.

Returnable deposit: Two dollars and fifty cents.

139—**Bacteriology.** Four hours.
A general course dealing with fundamentals of bacteriology, the morphological and cultural characteristics of some of the forms will be studied.

Returnable deposit: Two dollars and fifty cents.

Prerequisite: Science 37 and 38.

CHEMISTRY

25—**Inorganic Chemistry.** Four hours.
Three theory periods and one double period for laboratory each week.

A course in general inorganic chemistry. The fundamental principles of the science of chemistry. A comparative study of the more common chemical elements and compounds together with the fundamental laws and theories concerning their combinations.

Returnable deposit: Two dollars and fifty cents.

26—**Inorganic Chemistry.** Four hours.
A continuation of Course 25.
Returnable deposit: Two dollars and fifty cents.

27—Inorganic Chemistry. Four hours.

Three theory periods and one double period for laboratory each week.

A continuation of Course 26, including further study of the metals as applied in commercial uses. Visits to commercial industries.

Prerequisite: Science 26.

Returnable deposit: Two dollars and fifty cents.

75—Analytical Chemistry—Qualitative Analysis. Four hours.

One theory period and three double periods for laboratory work each week.

Reactions, methods of separation, and identification of the common metals and acids.

Prerequisite: Science 27.

Returnable deposit: Two dollars and fifty cents.

76—Analytical Chemistry — Qualitative Analysis, six weeks; Quantitative Analysis — Gravimetric, six weeks. Four hours.

One theory period and three double periods for laboratory work each week.

This is a continuation of course 75.

Prerequisite: Science 75.

77 — Analytical Chemistry — Quantitative Analysis. Four hours. Gravimetric, three weeks; Volumetric, nine weeks.

One theory period and three double periods for laboratory work each week.

A continuation of Course 76.

Prerequisite: 75, 76.

92—Organic Chemistry. Four hours.

Two theory and two double periods per week.

This course is organic chemistry for home economics students.

Prerequisite: Chemistry 27.

Returnable deposit: Two dollars and fifty cents.

175—Industrial Chemistry. Four hours.

Prerequisite: Two years of Chemistry.

The principal chemical industries are discussed.

130—Organic Chemistry. Four hours.

Two theory periods and two double periods per week for laboratory work.

Prerequisite: Courses 25, 26, 27.

Courses 130, 131, and 132 consist of a study of the fundamental types of organic compounds, their nomenclature, classification, reaction, relationships and general application. The purpose of this course is to furnish comprehensive knowledge of the carbon compounds.

Returnable deposit: Two dollars and fifty cents.

131—Organic Chemistry. Four hours.

Two theory periods and two double periods for laboratory work each week.

Prerequisite: Course 130.

A continuation of Course 130 and uses the same text.

Returnable deposit: Two dollars and fifty cents.

132—Organic Chemistry. Four hours.

Two theory periods and two double periods for laboratory work each week.

Prerequisite: Chemistry 131.

A continuation of Courses 130 and 131. Intensive course in summer if requested.

Returnable deposit: Two dollars and fifty cents.

136—Food Chemistry. Four hours.

Required for all Home Economics majors.

Prerequisite: 25, 26, 27, 92.

Returnable deposit: Two dollars and fifty cents.

PHYSICS

80—General Physics. Four hours.

Two theory periods and two double periods for laboratory each week.

A study of physical laws and principles and their application to practical uses. Applications to those principles which bear directly upon everyday problems. A study of mechanics, gases and liquids.

Returnable deposit: Two dollars and fifty cents.

81—General Physics. Four hours.

Two theory periods and two double periods for laboratory each week.

Prerequisite: Physics 80.

Returnable deposit: Two dollars and fifty cents.

82—General Physics. Four hours.

Two theory periods and two double periods for laboratory each week.

A continuation of Course 81. The principles of heat and light, radio activity, and the simple principles of the radio.

Prerequisite: Science 81.

Returnable deposit: Two dollars and fifty cents.

137—Household Physics. Four hours.

Three theory periods and one double period each week.

A course in physics especially designed for students of home economics.

Returnable deposit: Two dollars and fifty cents.

145—The Technique of Teaching Science. Four hours.

This course will be of immediate value in giving teachers the technique of handling science classes, and gives them practical aids to actual classroom instruction.

Prerequisite: Science 22, 23, 24, and a full year of some of the science group or its equivalent and Education 113.

DIVISION OF EDUCATION AND PSYCHOLOGY

Students may not major or minor in the departments of this field. However, students electing either of the elementary curricula should be guided in their choice of electives by the faculty of the departments of education and psychology.

Required courses in the field are as follows:

For Bachelor of Arts Degree: Psychology 65.

For Lower Elementary Curriculum: Education 20, Psychology 65, Education 66, Education 101, Education 103, Education 107, Psychology 116, Education 182, and six to eight hours elective from 162-169, 128, and 155.

For Upper Elementary Curriculum: Education 20, Psychology 65, Education 66, Education 101, Education 105, Education 109, Psychology 116, Education 183, and six to eight hours elective from Education 162, 169, 128, and 155.

For High School Curriculum: Education 20, Psychology 65, Education 113, Psychology 119, Education 185, 186, and six to eight hours elective from Education 162, 169, 128, or 155.

Students preparing for high school teaching should also take four hours in a methods course offered in their first major field. A methods course in the second major field may be substituted for one of the required electives.

Students who plan to do observing and practice teaching (Education 182, 183, 185, 186) must notify the Director of Teacher Training two quarters in advance in order that practice teaching schedules may be arranged.

EDUCATION

Dr. Pickens **Miss Jones** **Mr. Freeny**

20—Introduction to Education. Two hours.

An orientation course. Its purpose is two-fold: 1. To introduce the student to the study of education and to prepare him for the specialized courses which are to follow. 2. To help him to decide in what field he would like to work. Required for all degrees.

21—Orientation to College Life. Two hours.

A guidance course with such problems as how to study, good citizenship in the college, selection of curricula and courses, etc. Recommended for all freshmen during their first quarter of residence.

46—Parent-Teacher Association. Two hours.

Cooperation and coordination between the school and all social agencies in the community. The Parent-Teacher Association as a means of coordination.

66—The Progressive Elementary School. Four hours.

A study is made of the philosophy of education and of the psychological principles upon which progressive education is based. Consideration is given to the school organization and equipment; to the possibilities and limitations of the integrated curriculum; the makings of a daily schedule; new type school reports; and the personality of the teacher as a factor in teaching. Observation, analysis and evaluation of teaching situations.

101—Arithmetic in the Elementary Grades. Four hours.

The place and function of arithmetic in the modern elementary curriculum. Results of experiments made in arithmetic. The selection and organization of such subject-matter as will apply in an activity program. The use of tests, both standardized and informal.

102—Kindergarten-Primary Education. Four hours.

The purpose of this course is to bridge the gap between the Nursery School and the first grade. Emphasis will be given to the importance of the kindergarten-primary, as not only a period of happy, natural growth, but also a period of definite preparation for the work of the first grade. The course deals with activities which meet the needs of the individual and the group; it also provides criteria for planning and carrying out activities, and for judging the outcome of such activities in terms of habits, attitudes, knowledge and skill on the pre-school level. Observation in the Nursery School and primary grades of the Demonstration School.

103—Social Studies in the Primary Grades. Four hours.

This course deals with the selection and evaluation of social study units appropriate for primary grades. Each student will be expected to work out in good form one social study unit. Detailed technique for development of specific units will be considered. Observations in Demonstration School. Required for lower elementary grades.

Prerequisite: Education 20, Psychology 65, Education 66, Fine Arts 25.

105—(Formerly 75)—Social Studies in the Upper Elementary Grades. Four hours.

Prerequisite: Education 20, Psychology 65, Fine Arts 25, Geography 33 or 70. A parallel course to Education 103 designed for teachers in the upper elementary grades.

107—Reading and English in the Primary Grades. Four hours.

The first part of the course deals with an intensive study of basic reading problems; the place of reading in a progressive program; the development of reading habits, attitudes, appreciations, and skills. A study is made of recent investigations and research

in reading with practical applications of such studies to Mississippi schools.

The second half of the course emphasizes the "what" and the "how" of English in the "new" curriculum. Observations and discussions of work done in the Demonstration School.

109—The Teaching of Reading and English in the Upper Elementary Grades. Four hours.

The first part of the course is given to the study of specific types of materials for directed and independent reading; the relative importance of silent and oral reading. Special attention is given to diagnosis of reading deficiencies with suggestions for remedial work. The student has access to the latest research and investigations in reading.

The second part of the course is given to the study of problems in teaching oral and written English, including development of vocabulary. Again attention is given to the latest research in English. Observations in the Demonstration School.

113—Principles of Teaching in High School. Four hours.

The aims of secondary education, motivation and direction of learning, types of learning in the secondary school, organization of materials of instruction, and teaching techniques. The Demonstration School is used for a laboratory in which pupils observe and discuss the actual working out of the principles discussed in the course.

116—Visual Education. Two hours.

128—Historical Foundations of American Education. Four hours.

This course traces the development of some of the more important educational problems of modern times as they have been affected by the social, economic, and political facts of American history.

136—Guidance in the Secondary School. Four hours.

A study in the distributive and adjustive phases of vocational, recreational, health and social-civic guidance in the secondary school.

143—A Survey Course in Elementary Education. Four hours.

This course will consider the following topics: 1. Materials of teaching in the elementary grades with emphasis on reading in the various fields; 2. A study of the principles of Progressive Education with practical application to the various subjects in the elementary curriculum; 3. The place of social study units in the "new curriculum" with attention to the integration of those subjects which are needed to make the unit more meaningful; 4. The evaluation of work done through the use of standardized and informal tests, and through the judgment of the teacher. Observation in the Demonstration School.

155—Organization and Administration of Rural and Village Schools. Four hours.

This course includes discussion of organization and management, consolidation, transportation, supervision, care of buildings and grounds, health work, the school and the community. Special attention is given to Mississippi laws relating to consolidated schools.

162—Curriculum Construction. Two hours.

The nature of the curriculum as determined by actual human needs, purposes and interest of children; courses of study recently prepared; Mississippi program for improvement of instruction.

163—Laboratory Problems in Curriculum Construction. Two hours.

A continuation of Education 162, practical problems of curriculum construction.

169—Tests and Measurements. Four hours.

A study of certain typical standardized intelligence results, the organization and the use of informal objective tests, diagnosis and remedial measures.

175—Supervision of Instruction in the Elementary Grades. Four hours.

This course is designed to meet the needs of those who expect to be elementary supervisors or elementary principals. A study of the nature and principles of supervision, problems of constructing the course of study, improvement of teachers in service, use of educational tests and measurements.

182—Observation, Participation, and Directed Teaching for Lower Elementary Grades. Ten hours.

Prerequisite: Education 20, 66, 101, 103, 107; Psychology 116.

Students should arrange for this course at least two quarters before they wish to take it, and should adjust their schedule so as to have two consecutive hours each day for work in the Demonstration School.

183—Observation, Participation, and Directed Teaching for Upper Elementary Grades. Ten hours.

Prerequisite: Education 20, 66, 101, 105, 109; Psychology 116. Same requirements as for 182.

185—Observation, Participation, and Directed Teaching in High Schools. Five hours.

Prerequisite: The completion of 120 hours of college work, including Education 20 and 113, Psychology 119, and a methods course in the field in which the student wishes to teach.

186—Observation, Participation, and Directed Teaching in High Schools. Five hours.

This is a continuation of Course 185, which is a prerequisite.

190—Problems in Technique of Teaching. Ten hours.

This is an advanced course for the study of problems involved in the technique of teaching, using the Demonstration School as a laboratory for experimentation. The course is open to only those who have completed one of the practice teaching courses, Education 182, 183, or 186. Half of the course may be taken for a credit of five hours.

PSYCHOLOGY

Dr. Pickens **Mr. Freeny**

65—(Formerly 25) — Elementary Psychology. Four hours.

Prerequisite: Sophomore standing.

A course in which the customary topics of adult human psychology are studied. Readings and discussions will be supplemented by class demonstrations and some individual experiments. A core requirement for all degrees.

116—(Formerly 85)—Child Psychology. Four hours.

Prerequisite: Psychology 65.

A course which studies genetically the child's various capacities and tendencies from their innate beginning up to their complicated manifestations in late childhood.

119—Educational Psychology for High School Teachers. Four hours.

Prerequisite: Psychology 65. This course covers the general principles of psychology as applied to the education of high school pupils. Important aspects of adolescent psychology are therefore incorporated with the important considerations of educational psychology.

129—Applied Psychology.

Prerequisite: Psychology 65.

A study of psychological principles in their relations and applications to various important human problems and activities such as advertising, selling, personnel management, law, medicine, etc.

Special emphasis will be placed upon matters of vocational aptitudes and interests in relation to the various types of occupational and professional requirements toward a better matching up of capacities with needs, and through that to a happier and more successful living.

By special permission, students who have had Educational Psychology may take this course in lieu of either Psychology 116, or 119.

139—Social Psychology.

Prerequisite: Psychology 65.

In this course man will be considered in his social inclinations and relationships—his reactions to and his influence upon others.

Drawing as much as possible upon experimental findings, such questions as the following will be studied: customs, social inter-

actions, crowd behavior, propaganda, etc. Current social questions and occurrences will be considered psychologically.

By special permission students who have had Educational Psychology may take this course in lieu of either Psychology 116, or 119.

157—Individual Mental Testing. Four hours.

Prerequisite: Junior standing and two previous courses in psychology.

This course is designed to give the teacher a thorough acquaintance with the nature and application of the Stanford Revision of the Binet-Simon Measuring Scale of Intelligence and especially with the interpretation of the results secured.

188—Experimental Educational Psychology. Four hours.

Prerequisite: Psychology 65 and average grades of B or better.

The purpose of this course is to acquaint the student with the nature of actual investigations of school problems and to give him command of the basic methods and means, through actual practice, of conducting such investigations. To this end, he first examines a few typical and significant studies. Next, he collaborates with others in working out some elementary problem largely selected and outlined by the instructor. Finally, he attacks a problem of his own choosing.

DIVISION OF SOCIAL STUDIES

Candidates under either the lower or upper elementary Curricula may major in Geography, History, or a combination of Political Science, Economics and Sociology by electing thirty-six hours in the department. Students may major in Geography by electing thirty-six hours in the department, including 33, 110, 138, 139, 131, 145, 147. Students may major in History by electing thirty-six hours in the department. Economics 55, 129, and 133; Sociology 63 or 75, 112 and 176 or 177; Political Science 25, 45 or 130 or 135 and eight quarter hours of electives in these subjects are required of those who choose the combination major.

Candidates for the Bachelor of Science degree under the High School Curriculum may major in the field of Social Studies by selecting any of the following groups:

Major Group II students take Geography 33, 110 or 138; twenty-eight hours in History; Economics 55, and Political Science 25 or 45 or 130. A methods course is also required in one of the student's major fields.

Major Group III students should take Geography 33, 110 or 138; forty hours in History, including History 125; Political Science 25, 45 or 130 or 135; Economics 33, 55, and Sociology 63, 175 or 176 or 177. Electives may be chosen from the field to complete eighty-four hours in the group.

Major Group IX students must meet, as a minimum, the requirements of the field in Group II, or the requirements in Commerce in Group XIII or XIV.

Major Group XIII students should take Commerce 25, 26, 32, 33, 34, 35, 36, 65, 115, 116, 117, and 150; twenty-eight hours in History; Geography 138, and 145; Economics 55, 129, or 133; Sociology 63; Political Science 130, or 135. A methods course is also required in one of the major fields.

Major Group XIV students should take Commerce 33, 34, 35, 65, 115, 125, and 130, and either Accounting Studies 116, 117, and 170, or Secretarial Studies 25, 26, 32, 36, and 150; Geography 138, or 145; Economics 55, 129; or 133; Sociology 63; Political Science 130 or 135; Mathematics 60, and electives in social studies, 4 or 8 hours.

Commercial majors with previous commercial training may be exempted from courses in Commerce on the basis of tests of proficiency.

The core requirements for the Bachelor of Arts degree include twenty hours in the field of Social Studies. Students are exempted from four hours of this core requirement for every high school unit beyond two in the field. For instance, students presenting three high school units in social studies have a core requirement of sixteen hours for the Bachelor of Arts degree; those presenting four high school units in the field have a core requirement of twelve hours, etc.

Candidates for the Bachelor of Arts degree may major in History, Sociology, or Economics, selecting their courses in the field with the advice of the head of the major department.

BUSINESS EDUCATION AND COMMERCE

Mr. Harlan **Mrs. Deaton**

This department has been established primarily for students who wish to prepare for commercial teaching and emphasis is laid upon the general principles underlying all lines of business. It is also designed for those who intend to enter the varied business fields, law, or public service, and generally to form the basis and provide the outlook for a life of activity and leadership in community affairs.

POSITIONS:—Although the college does not guarantee positions to its graduates and students completing special courses, the instructors frequently receive requests from employers for men and women trained in their respective lines. The college solicits such applications from employers and on its part promises to recommend its graduates only when convinced that they possess the qualifications desired by employers who apply.

The field of Business Education and Commerce offers two curricula. (1) A curriculum leading to a B.S. degree with a major in business education, and (2) A two year curriculum in secretarial science. Upon the completion of the two year secretarial science curriculum a certificate is granted. It should be noted that those receiving the certificate in secretarial science may complete the work for the degree with a major in business education with a minimum of additional work. A description of the programs leading toward graduation follows:

COMMERCE

Mr. Harlan **Mrs. Deaton**

25—Beginning Shorthand. 4 Quarter hours.

This is a course in the theory and practice of Gregg Shorthand. In addition to the theory, the principles are applied by reading and writing of supplementary plates in shorthand.

26—Intermediate Shorthand. 4 Quarter hours.

Prerequisite: Commerce 25 or its equivalent.

A continuation of Commerce 25, completing the study of the principles of the Gregg System. Training is given in introductory dictation, reading, and transcription as a preparation for the Dictation Courses which follow.

28—Business Arithmetic. 4 Quarter hours.

A brief elementary course in arithmetic which reveals the short-cuts and helpful suggestions for speed and accuracy in computations. Major emphasis is placed upon developing proficiency in those problems frequently met by secretaries and office workers.

32—Advanced Shorthand. 4 Quarter hours.

Prerequisite: Commerce 26 or its equivalent.

Dictation on new material at the rate of 80 to 100 words per minute for a continued interval of time. A standard reading rate, transcription rate, and mailable transcripts required. The course includes four class periods and a laboratory period each week.

33—Elementary Accounting. 4 Quarter hours*.

The application of accounting principles, special attention to single proprietorship. The use of special journals, cash books, ledgers, trial balances, and work sheets.

34—Elementary Accounting. 4 Quarter hours*.

Prerequisite: Commerce 33.

The application of accounting principles to partnerships. Preparation of balance sheets, profit and loss statements, controlling accounts, subsidiary ledgers, deferred charges, and accruals.

35—Beginning Typewriting. 4 Quarter hours.

A first course in typewriting which consists of a mastery of the keyboard and the beginning of continuity writing. The reaches on the keyboard are presented by the vocabulary method before letter-associations and manipulative mastery are introduced. The course is open to students who have not had typewriting, or for those who are not eligible for Commerce 36. The course includes four class periods and two laboratory periods a week.

36—Intermediate Typewriting. 4 Quarter hours.

Prerequisite: Commerce 35 or its equivalent.

A continuation of Commerce 35. Intensive drill is given on words of high frequency, figure-associations and special characters. The continuous writing is emphasized. Envelopes, letters, and manuscripts are brought into use both as knowledge and skill. The course includes four class periods and two laboratory periods per week.

37—Advanced Typewriting. 4 Quarter hours.

Prerequisite: Commerce 36 or its equivalent.

Special stress is given to the attainment of speed in continuity writing, and to the mastery of tabulation, rough draft, and general business forms. The course includes four class periods and two laboratory periods per week.

50—Advanced Dictation and Transcription. 4 Quarter hours.

Prerequisite: Commerce 32 and 55. No equivalent.

Dictation is given on new material at the rate of 100-120 words per minute for a continued period. Also varying rates of dictation are emphasized. A standard reading rate, transcription rate, and mailable transcripts required. The course includes four class periods and two laboratory periods per week.

52—Secretarial Practice and Procedure. 4 Quarter hours.

Prerequisite: Commerce 50 and 55. No equivalent.

The objective of the course is to train the student in actual office procedures and practices including filing and indexing. Actual secretarial practice in designated offices is required.

55—Practical Typing Problems. 4 Quarter hours.

Prerequisite: Commerce 36 and 37.

Real business problems are introduced and further emphasis is also given to speed-writing. Specific jobs, including a variety of work, are designed to be finished accurately in a definite time. The course includes four class periods and one laboratory period a week.

65—Intermediate Accounting. 4 Quarter hours.

Prerequisite: Commerce 33 and 34.

The work in this course includes thorough instruction in the study of Partnerships and Corporation Accounting Principles, which is supplemented by carefully selected questions to problems.

115 & 120—Business Law. 4 Quarter hours each.

Fundamental principles of law most frequently involved in business transactions, including contracts, sales, partnerships, master and servant, principal and agent, corporations, negotiable instruments, property, bailments, and common carriers, with the view of enabling business men to avoid litigation.

A study of the Uniform Motor Vehicle Acts; the Act Regulating Traffic on the Highways; Operator's and Chauffeur's License Act; Registration Act; Automobile Liability Security Act; and the Anti-Theft Act. Also the following as they relate to the automobile: Sales and Bailments; Warranties and Fraud; Conditional Sales and Mortgages; and Compulsory Insurance and other types of vicarious liability. (Credit for both quarters only).

116—Advanced Accounting I. 4 Quarter hours.

Prerequisite: Commerce 33, 34, and 65.

This course is designed to develop the student's analytical ability as applied to accounting problems, preparatory to the complicated cases presented in the more advanced accounting courses.

117—Advanced Accounting II. 4 Quarter hours.

Prerequisite: Commerce 116.

Theory and Practice relating to the theory of the various balance sheet accounts, working papers, statements, consignments, installment sales, funds and reserves, statement of application of funds, etc.

125—Materials and Methods in Business Education. 4 Quarter hours.

The history and development of Business Education, aims or objectives, laws of learning, teaching procedures, tests and measurements, and special helps such as teaching materials for the teachers of business subjects are studied in this course. Consideration is given to the current trend in teaching in these fields, which tends to place emphasis on the viewpoint of the consumer as well as on the social and vocational objectives.

130—Salesmanship. 4 Quarter hours.

This is a study of sales tactics and methods, giving consideration to the psychology of selling, buying motives, preparations of sales, prospecting equipment, canvass, securing an interview, approach, demonstration, objections, closing, types of customers, qualifications of salesmen.

135—Retail Merchandising. 4 Quarter hours.

This course includes a common sense survey of the complete scope of successful retail store management and merchandising. In the beginning is given a brief historical background and an outline of the existing types of retail institutions. There follow discussions of the various phases of retailing in the order in which they usually arise—from problems of location, building and fixtures to the purchase and pricing of merchandising. Also, the course stresses promotion and initial organization; retail accounting; ownership and control; credit; collections; risks; insurance; purchasing and marketing.

140—Business Organization and Finance. 4 Quarter hours.

A study of organizing and financing a business enterprise. Field of business, forms of business organization, expansion, financing the new enterprise, reserve policies, investment of funds, and credit expansion. Emphasis will be placed on business organization and short term financing. Prerequisite: Commerce 33, 34, 65, and Economics 56 and 57.

145—Economic History of the United States. 4 Quarter hours.

This course treats in a general way some of the economic forces that led to the discovery of America. More specific treatment being placed upon the Colonial Economic setting and the influence of this setting upon our national development. Special emphasis being placed upon the economic development of the Constitution; political parties; social and economic thought of the public.

150—Office Machine Operation. 4 Quarter hours.

A course to acquaint the student with the various office machines and equipment. Sufficient practice assignments are required in order to secure the certificates of proficiency on the machines. The techniques of filing and indexing are continued.
Prerequisite: Commerce 28 and 37.

160—Office Management. 4 Quarter hours.

Problems involved in planning and directing the functions of business and professional offices; executive duties and responsibilities of the office manager, private secretary, and supervising stenographer; selecting and training of office workers; selection and care of office equipment and supplies; office plans and specifications; routine procedure, such as interviewing callers, reporting conferences, and the handling of mail.

184—Economics of Consumption. 4 Quarter hours.

The objectives of this course are to give the student an understanding of the economic principles or laws that govern consumption, and to present facts relating to American standards of living and consumption habits. Some of the topics treated are: consumption defined; laws or principles of consumption; relation of consumption to production; harmful, wasteful, creative, and productive consumption; relation of consumer and producer; the creation of consumer demand; standards of living; consumption habits; consumption controls; government regulation; consumer education; consumer cooperatives.

*Students who have had Bookkeeping in high school or Elementary Accounting in Junior College are exempted from these courses provided they pass a qualifying examination in these subjects.

GEOGRAPHY

Miss Bolton

33—Principles of Geography. Four hours.

Required of upper elementary certificates and degrees. Study of the relations between natural environment and human life in the various regions of the earth. Emphasis on climate. Basis for all further geography study.

43—(Formerly 83)—Geography of Selected Countries. Four hours.

A brief survey of the economic geography of important countries, their products and trade relations. Special emphasis on the United States.

118—(Formerly 88) — Geography of South America, Mexico and the Caribbean Countries. Four hours.

A study of Latin America intended to acquaint the student with the geography of regions differing from his own in many respects. Open to sophomores.

110—(Formerly 70)—**Geography of United States and Canada.** Four hours.

130—**Physical Geography.** Four hours.

Students may substitute this course for Geography 33.

131—(Formerly 111)—**Geology and Geography of Mississippi.** Two hours.

135—**Principles of Human Geography.** Four hours.

Prerequisite: Junior or Senior standing.

Not open to students who have had Geography both 33 and 130.

The relation of geographical environment to human activities. Illustrations from different countries and civilizations to show man's dependence on minerals, water bodies, land forms, vegetation and climate. Climate as a factor in civilization and the practical economy of peoples.

138—(Formerly 114)—**Geography of Europe.** Four hours.

A study of European countries, their people, products, trade, etc., with emphasis on the relation between geographic environment and present economic problems.

139—(Formerly 115)—**Asia and Australia.** Four hours.

Method of treatment same as 138. China, Japan and India stressed.

140—**Geography of Africa.** Two hours.

145—**Advanced Economic and Commercial Geography.** Four hours.

A study of the chief commodities that enter into world trade, their source and exchange, and the social, economic and political problems involved in this exchange.

147—**Human Geography of the South.** A Regional Study. Four hours.

A study of the geographical, historical, economic, and social factors that have gone into the making of the South as we know it today. Also some estimate of economic changes that might better the situation, suggested in the light of findings by research experts and scientific experiment.

160—**Geographic Influences in American Development.** Four hours.

Recommended for Social Studies majors. A study of the relation of geography to the exploitation, settlement, and political, industrial, and social development of the United States.

HISTORY

Dr. McLemore **Miss Jackson**

27—World History, 1450-1789. Four hours.

Introductory course in the history of the modern world, covering the period from the Renaissance to the French Revolution.

28—World History Since 1789. Four hours.

A continuation of History 27. Covers the period from the outbreak of the French Revolution to the present.

29—Mississippi History. Four hours.

An introductory course dealing with Mississippi as a province, a territory and a state. Required of all Freshmen.

61—American History to 1789. Four hours.

This course is designed to give the student a survey of our political, social and economic history to 1789.

62—American History, 1789 to 1865. Four hours.

A continuation of History 61. A survey course of the middle period of American history, from the formation of the government through the Civil War.

63—American History Since 1865. Four hours.

A continuation of History 62. Covers the period from the close of the Civil War to the present.

109—Problems of Mississippi History. Four hours.

An advanced course dealing with special phases of Mississippi history. Particular emphasis is placed on the part Mississippi and Mississippians have played in national affairs. Not open to students who have had History 29.

110—The Middle Ages. Four hours.

An advanced course in European history covering the period from the creation of the Roman Empire to the beginning of the Renaissance.

125—The Teaching of the Social Studies. Four hours.

Designed for the teacher of the Social Studies. Treats of the problems of teaching centered around the teacher, his subjects, and his classroom difficulties.

127—Inter-American Relations. Four hours.

A brief study of the Hispanic states from 1830 to the present with emphasis on the history of the ABC powers, Mexico, and Cuba. The course deals with the origin and development of the present-day problems of Hispanic America in the field of foreign relations. It treats of the diplomatic relations of the Hispanic American states with each other and primarily with the United States. Topics given intensive study are: The Monroe Doctrine, Pan-Americanism, Caribbean Problems, and Mexico Relations.

128—Early American Foreign Relations. Four hours.

A survey of the foreign policy of the United States from the Revolution through the Civil War. Particular attention is devoted to the Monroe Doctrine and problems of expansion.

Prerequisite: A year course in American History.

129—Recent American Foreign Relations. Four hours.

A continuation of History 128. Covers the period from 1865 to the present. Special emphasis is given to imperialism, the World War, the League of Nations and the World Court as they affect the United States.

Prerequisite: A year course in American History.

140—Civil War. Four hours.

An intensive study of the period 1861-1865.

Prerequisite: 62.

142—Recent American History. Four hours.

A topical treatment of the period from 1876 to the present. Units studied include labor, tariff and currency, imperial America, trusts, the World War, American and Internationalism.

Prerequisite: 63.

174—Early English History. Four hours.

A survey of Ancient and Medieval England with emphasis on customs, literature, and institutions. Especially recommended for English majors and for those who contemplate a study of law.

Prerequisite: 27.

175—Modern English History. Four hours.

A study of England from the time of the Stuarts. Especial emphasis is placed upon the development of political institutions, the industrial revolution, and imperialism.

Prerequisite: 28.

176—Reformation and Revolution. Four hours.

An advanced course in European history covering generally the period from 1500 to 1815 with particular stress on the Lutheran revolt, the Counter-Reformation, the Religious Wars, the French Revolution, and the Napoleonic regime.

Prerequisite: 27.

177—Recent European History. Four hours.

A study of the period from 1918 to the present.

Prerequisite: 28.

185—History of the Old South. Four hours.

A reading, research, and discussion course for students particularly interested in the institutions and customs of the ante-bellum South. Special attention given to slavery, life on the plantation, manners and customs.

Prerequisite: 61.

ECONOMICS

Mr. Wilkinson

33—American Economic Life. Four hours.

The purpose of this course is to acquaint the student with a few of the modern economic problems, very little attention being paid to economic theory. Topic: The different standards of living; the problem of the just apportionment of income; the relation of the financial organization to industry; relations between economic, social, and political conditions.

55—Principles of Economics. Four hours.

A study of the fundamental principles of economics underlying the present economic organization. The laws governing the consumption, the production, the distribution, and the exchange of wealth with attention to the problems of monopoly, nature of human wants, and business organizations. A practical course for rural communities.

77—Labor Problems. Four hours.

The aim of this course is to present the important facts in the history of organized labor in the United States, to analyze the chief problems which affect labor organizations and to evaluate the functions of organized labor.

129—Public Finance. Four hours.

The plan of this course intends to give the reader and student a reasonable amount of information concerning past and current governmental expenses, also both the history and present methods of taxation as illustrative principles which the future taxpayer and voting citizen should know concerning the finances of the government. Financial conditions of Mississippi will be stressed.

133—Money and Banking. Four hours.

This course presents an outline of modern American banking in its relation to other business. It is thought best to emphasize the business aspect of the bank as viewed from the outside rather than stress its internal organization too much. Particular attention has been given to the financing of the individual enterprise; the problems which must be met by the business man, in whatever occupation engaged, in connection with the transaction of the banking side of his operations.

153—Marketing. Four hours.

A study of the principles, methods, and problems of marketing. It treats of the nature of the marketing process. It views the market structure as a whole and analyzes marketing problems and the devices used in solving them.

GOVERNMENT

Mr. Wilkinson Miss Jackson

25—American Government. Four hours.

This course offers a study in the science of government, particular attention being given to the origin and development of the federal system, and a comparison of this system with those of some of the European countries.

45—County Government. Four hours.

This course stresses the increasing importance of County Government both in scope of its older functions and in the expansion of activities in new directions. Attention is given to the administration and operation of governmental activities in all of its various fields. The increasing scale of county finances and the steady expansion of county activities make an understanding of this part of our governmental system much more important than ever before.

Special attention will be given to the increasing importance of the social services the county government is being called upon to render.

105—Parliamentary Law and Its Usage. Two hours.

The aim of this course is to explain the generally accepted rules of the conduct of meetings and inform young men and women how to organize and conduct business in mass meetings and different kinds of societies.

106—American Political Parties. Two hours.

This course is a history of the leading political parties of the United States and a study of practical politics in such topics as nominating methods, campaigns and elections, party machinery, election laws, spoils systems, civil service reform, and remedies for evils of present day political methods.

130—State Government. Four hours.

This course outlines the organization and problems of state government in the United States. The different forms of local government are discussed as parts of the state governmental organization rather than as independent institutions. Specific application will be made to the conditions existing in Mississippi, in trying to obtain a true picture of our own state government.

145—Current Problems in Citizenship. Four hours.

The course is intended to supply a background for intelligent appreciation of the facts about American government. Topics treated are immigration, naturalization, Americanization, race relationships, public opinion, unemployment, prohibition, economic and legal status of women, war and peace.

135—American Municipal Government. Four hours.

A study of the principles and systems of municipal government, with special stress on the municipal revenues, the municipal budget, public safety, city planning, municipal politics, municipal indebtedness and the city as a problem in the government.

185—International Law. Four hours.

Since the World War an intimate bearing of international law upon the peace and prosperity of the world at large has been realized by the general public as well as by statesmen and scholars. Hence the study of the principles of International Law, with special stress on neutrality, methods of warfare, treatment of prisoners of war, maritime commerce, remedial rights and peace treaties.

SOCIOLOGY

Mr. Wilkinson

63—An Introduction of Sociology. Four hours.

This course aims to give the student a clear and appealing start in Sociology, then a concise presentation of the subject that has correctness and accuracy. It is a comprehensive study of the concepts and processes fundamental to Sociology. Topics discussed: man and his social equipment; man and his social experience; man and his social organization; man and his social failures; man and his social resources.

75—Rural Sociology. Four hours.

This course is a treatment of such rural institutions as the home, the school, and the church. Topics discussed: social life on the farm, the tenant system of farming, recreation, isolation, rural communication, good roads, backward and anti-social classes, farm women and the home, community-building and the development of rural society in general.

112—The Science of Social Relations. Four hours.

The purpose of this course is to help promote a constructive understanding of the problems of social relations. It presents a practical study of the relationships between individuals and attempts to analyze causes and offer suggestions for the solution of conflicts and mal-adjustments in these relationships. Topics discussed: The expanded personality; the social inheritance of personality; dynamic of personality; social conflicts; solving conflicts by process of accommodations; mental conflicts and the failure complex.

128—Crime and Its Social Treatment. Four hours.

In recent years great developments have been made in the science of human behavior. It is time that calm, scientific study rather than sensational journalism methods be devoted to problems of crime and criminals. It is apparent that the criminal must be dealt with as a human being rather than a concept.

175—Advanced Principles of Sociology. Four hours.

This course is designed to give the student an intelligent understanding and a working system of thought about society and social origins, to make a general introductory survey of the field of principles of sociology, to help the student to arrive at wise decisions as to social policies, social forces, and social products.

176—Educational Sociology. Four hours.

A study of the relation of education to social conduct. Emphasis will be placed upon the subject matter, social problems of the teacher and the school organization.

177—Ethics. Four hours.

The purpose of a study of Ethics is to awaken a vital conviction of the genuine reality of moral problems and the value of reflective thought in dealing with them. It emphasizes the importance and the possibilities of right living; it makes clear to us why one act is better than another; why duty is justified in thwarting our inclinations and conscience is to be obeyed. It helps us to see what are the prevalent sins and moral dangers of our day and thus arouses us to put the weight of our blame and praise where it is needed.

FALL QUARTER—1943-1944

Class days for third period classes are Tuesday, Wednesday, Thursday and Friday. Chape exercises are held on Monday at the third hour in the auditorium. For convenience ir classification subjects in the various divisions have been arranged in alphabetical orde in this schedule.
